

SEVEN PRINCIPLES OF PROSPEROUS VISION

This is the business philosophy of The B-Squared Global Group.

1. We are agents of God in the business world: we succeed where others fail.
2. We set more appointments, close more deals, and win bigger opportunities because we are agents of the Divine.
3. We are moving the world forward by helping enterprises power their businesses with the best people and the greatest solutions.
4. We succeed because we are divinely aligned, operate in divine flow, and understand that our Source of supply is unlimited, immediate, abundant and freely giving.
5. We expect enterprises, companies, brands, owners, innovators and influencers around the world to seek after us for our business solutions.
6. We anticipate a colossal windfall of prosperity, big successes, and huge wins, often and continuously, in every season.
7. We are building the world's greatest and most profitable sales engine to accelerate businesses, brands and enterprise builders around the globe—and we are unstoppable!!

Say each principle as an affirmation every day.
