

STUDENT PROGRAMS

We motivate, train, and coach students.

In addition to motivational seminars for colleges, we also offer programs that help students unlock more of what's already inside of them and achieve bigger dreams.

ACADEMIC SUCCESS PROGRAM

This program is to improve graduation and retention rates by helping students learn the mindset, strategies, and habits of high performers. We help students approach their education differently, so they see it as fun and relevant and *want* to do well.

CAREER MENTORSHIP PROGRAM

This program is for soon-to-graduate students to help them to identify their top strengths, skills, and passions and translate them into professional success. We also provide capacity and skill-building to help students increase their earning potential and pivot into the digital age.

We teach and coach on

- Interviewing & Negotiating
- Executive Presence
- Entrepreneurship

ENTREPRENEURSHIP & LEADERSHIP PROGRAM

This program is for highly driven college and graduate school students, particularly those interested in sales, entrepreneurship, or leadership. We leverage our experience as attorneys, executive sales leaders, and professional speakers to teach speaking, selling, and storytelling strategies.
