

Formal Statement on Sustainability Commitment

The B-Squared Global Group, LLC is committed to promoting sustainability across environmental, social, and economic dimensions in alignment with the UN Sustainable Procurement Framework. Our approach integrates ethical business practices, responsible resource management, and inclusive economic development to drive long-term positive impact.

Environmental Commitment:

- We prioritize sustainable resource use by integrating digital-first training solutions that reduce paper waste and carbon footprints.
- We advocate for environmentally responsible business practices in our leadership and workforce development programs, equipping organizations with strategies for sustainable growth.

Social Commitment:

- We actively promote human rights, labor rights, and gender equality by developing inclusive workforce training programs that support marginalized communities, including ex-offenders, veterans, and underrepresented professionals.
- Our mentorship and coaching initiatives enhance career readiness and economic mobility, fostering equitable opportunities for all.
- We design training programs that incorporate mental health and well-being strategies to promote holistic professional development.

Economic Commitment:

- We collaborate with local entrepreneurs, small businesses, and minority-owned enterprises to strengthen economic ecosystems.
- Our training programs emphasize ethical leadership, responsible corporate governance, and sustainable financial practices.
- We integrate long-term cost-effectiveness in our consulting approach, ensuring sustainable economic impact for the organizations we serve.

Through our **global training, mentorship, and consulting programs**, we are dedicated to advancing sustainability while equipping individuals and institutions with the tools needed for ethical, inclusive, and long-lasting growth.
