

**2022 AHCA FALL DELEGATES MEETING
VP / SAFETY OFFICER REPORT**

We had a very safe year as usual. I continued our membership with SEMA and am continuing to keep our safety rules current to the standards we are to uphold. I was able to attend the Enclave event. I was one of the group who was asked to take over the gymkhana at the event. In doing so, I was in charge of the tech inspections of the cars with some helpers. I also setup the course and helped run the event. One of my other obligations to the AHCA is being someone in the officers group which our club considers young. I feel it has been my job to be the voice of at least my generation and hoping to represent the younger generations in assuring the future of the club when they are of an age to be able to participate.
