

PACIFIC BUILDERS

"We Build Your Trust"

**EXPERT IN CIVIL ENGINEERING
AND CONSTRUCTION**

AG Pacific Builders was incorporated as a private limited company in the year 2019. As a relatively young organisation, AG Pacific Builders has gained solid foundation in the field of Civil & Structural Engineering and Tunnel Leakage Repairing works and also provided the company a huge entry to the Civil & Structure industry. The company has successfully accomplished more than 80 challenging and prestigious construction projects, working alongside with several giant construction companies in just few years of time, AG Pacific has demonstrated it's competency, work ethics, and quality since it's progress into the field of Civil & Structure.

OUR CORE VALUES

Integrity

We uphold the highest ethical standards and promote trust and respect

Excellence

Exceed our client's expectations and deliver the best services to you, and taking pride in each projects.

Passion for customer

Build positive relationships through outstanding service with each interaction

Innovation

Imagine what is possible. Foster creativity that challenges constraints and drives progress.

MISSION

We provide civil engineering and construction solutions to enhance the business of our customers whilst creating better services & technologies that benefit both the customers and environment.

VISION

We will be the most valued business partner of all our customers and we would like to be the best company to provide civil engineering and construction services to cater all sectors of the economy.

PAST PROJECTS

MRT SBK LINE 1

Client :
GAMUDA MGKT

Scope :
I) Tunnel Segment Leakage Repairing
Work
II) Tunnel Track Bed Leakage Repairing
Work

One of the job scope done for this project is drilling holes and preparing injection packer staggered along the leaking points, sealing of the leakage at tunnel segment with low-viscosity and injected grout and subsequently patch surface crack points and removal of packer.

Once the injection has solidified, all injection packers are removed. Injection holes are sealed, depending on construction depth. Any unnecessary or unsightly sealing material is removed.

Machinery used : WIWA 2K-Injekt 14025

Chemicals used : MC-Injekt GL-95 & GL-95TX

NCL-DH ACRYLIC SEAL (DH-50)

Working at height : Platform Ladder (Caged)

Job done for the tunnel track bed injection, is drilling hole and preparing injection packer at 100mm-300mm spacing staggered along the crack lines, inject grout and subsequently patch surface crack line and removal of packer.

Machinery used : NCL DHP-M1000

Chemical used : NCL-PU FLEX 2

PAST PROJECTS

MRT SSP LINE 2

Client name:

1. China Communications Construction Company (CCCC)
2. China Harbour Engineering Company Ltd. (CHEC)

Scope:

- i. Tunnel Segment Leakage Repairing Work

One of the job scope done for this project is drilling holes and preparing injection packer staggered along the leaking points, sealing of the leakage at tunnel segment with low-viscosity and injected grout and subsequently patch surface crack points and removal of packer.

Once the injection has solidified, all injection packers are removed. Injection holes are sealed, depending on construction depth. Any unnecessary or unsightly sealing material is removed. In this project various chemicals were used and professionally handled by us.

Machinery used : WIWA 2K-Injekt 14025

Chemicals used : MC Injekt GL-95 & GL-95TX

Working at height : Mobile Scaffold

KEY SERVICES

CIVIL & STRUCTURE

- (RC) Reinforced Concrete Slab & Wall
- (ABWF) Architectural Builders Works and Finishes
- Drainage and Sewerage System

TUNNEL RECTIFICATION

- Tunnel Leakage Grouting and Injection Work
- Tunnel Eye
- Tunnel Segment
- Tunnel Track Bed

RENOVATION & REFURBISHMENT

- Home Refurbishments (Total Demolishment & Construction)
- Ceiling Works, Brick Works, Tiling and Waterproofing (Residential or Commercial)
- Commercial & Industrial Roofing
- Mechanical & Electrical Works
