

6 simple steps to working together

Book a free Introductory video chat.

Complete my onboarding Questionnaire.

Got a new project? Schedule a 30-minute video briefing and send over your specification. We chat, discuss the scope, timeline, and get excited about your project!

I send you a Project Overview and Quotation. You send the required information, pay the deposit and then I get started!

We discuss the initial draft, make any necessary revisions, and you approve the final visuals.

I raise an invoice and your final images are sent in your requested format. I then look forward to seeing photos of your completed project!
