

All of our OTHER EVENT packages are listed below. Because every event is special and different, quotes will start at the listed amount but can increase due to different factors. After our initial consultation, you will receive a personalized quote for your event.

These packages cannot be whittled down and cannot be used for any event other than what the package specifies.

Booking more than one event at once will trigger a “bulk booking” discount of %5 per package booked. These events can also be booked and gifted to someone to use at a later date depending on the planner’s availability. Wedding planning clients and loved ones receive a 10% discount on any package booked related to engagement period.

These packages do not include rental credits and rentals must be paid for one week from the event date.

Payment is 50% at signing and 50% due 30 days from the event.
