

How We Built a \$5K/Month Automation Machine

In 14 Days — No Stripe. No Funnels. No BS.

The Problem

- No Stripe, PayPal, or mainstream processors (all accounts banned)
- Zero funnel assets, list, or CRM
- \$0 audience warmup
- Needed cash fast, with minimal tech stack

The Strategy

- Telegram-first dark offer
- Direct payment (Zelle, crypto, Cash App backups)
- Faceless identity, daily short-form, AI-powered comment DMs
- Lead capture via Google Forms + manual follow-ups
- \$87–\$197 product built + launched in 3 days

The Results

- \$5,148 collected in 14 days
- 42 paying customers
- 7 booked consults upsold into high-ticket
- Zero ad spend
- 100% automated follow-up using AI agents

“This is how you print money without a website.”

People don't buy funnels—they buy frequency, precision, and offers that hit.
