

Goneke Investment Group | Corporate Profile

Deuteronomy 28:12 (KJV)

“For the LORD thy God blesseth thee, as he promised thee: and thou shalt lend unto many nations, but thou shalt not borrow; and thou shalt reign over many nations, but they shall not reign over thee.”

The Firm

“Noah was instructed to build the ark from gopher wood — precise, enduring, and divinely appointed. Goneke Investment Group is built with the same intentionality, wisdom, and strength. In a world of uncertainty and upheaval, we are an ark for capital and purpose, preserving value through every storm.” — **Darren Goneke, Founder, Chairman and CEO**

Who we are

Goneke Investment Group (GIG) is an alternative asset manager and private equity firm, specialising in transformative investments across the critical systems that power economies: infrastructure, energy, food, health, real estate, and transportation. Since our founding in 2022, we are driven by an unwavering commitment to excellence, innovation, and the preservation of value—financial, social, and generational.

With a global perspective and deep African roots, we deliver tailored investment strategies that cut through complexity and align capital with impact. At GIG, we invest not just for returns, but to spark lasting transformation—building enduring assets, ecosystems, and institutions that tackle structural challenges, modernise national systems, and unlock Africa’s next frontier of potential. Where others see volatility, we see opportunity. From revolutionising energy to feeding the next billion, we act with entrepreneurial urgency and the discipline of stewards. Our purpose-driven approach transcends managing capital—we are engineering the systems, institutions, and innovations that make humanity fault-tolerant, future-ready, and capable of thriving for generations.

GIG Overview

We are a leading alternative asset manager and private equity firm

OVERVIEW OF GIG

Goneke Investment Group is an alternative asset manager and private equity firm, we build to scale civilisation — engineering systems, institutions, and innovations that make humanity fault-tolerant, future-ready, and capable of enduring across centuries.

Advising on an estimated **US\$3.5 billion** in assets, GIG is dedicated to bridging Africa’s infrastructure gap, effectively accelerating GDP growth and creating sustainable abundance.

MANDATE

Goneke invests in critical infrastructure—energy, logistics, digital, and transport that empowers African nations to reclaim strategic autonomy. We structure sovereign-aligned, future-proof assets that stimulate industrialisation, enable regional integration, and restore national control over essential systems. Our mandate is to turn infrastructure into instruments of independence not dependency creating lasting value for both nations and investors.

Goneke targets distressed, misunderstood, and high-complexity assets where others see risk, we see reinvention. We unlock trapped value through strategic restructuring, operational turnaround, and narrative transformation. Our mandate is to convert chaos into durable, asymmetric returns by applying clarity, conviction, and first-principles thinking in moments of dislocation.

Goneke builds ventures vital to Africa’s future—health, food, finance, education, defence—partnering with founders and governments to engineer institutions, not just startups. Our ventures serve both market and mission. The mandate: create sovereign-aligned, scalable businesses that protect civilisation, drive productivity, and generate generational impact across the continent.

PAMPLEMOUSES

Private Equity:

We acquire and build companies that define Africa's economic sovereignty.

Infrastructure:

We finance, build, and operate the arteries of civilisation — power, transport, digital, and water systems that underpin national resilience.

Real Estate:

We develop mission-critical, future-proof real assets that shape how nations live, work, and move.

Credit:

We provide intelligent capital where it matters most — financing enterprises, infrastructure, and trade flows that accelerate real economic output.

FINANCIAL ADVISORY:

We advise institutions, governments, and families on capital architecture, strategic financing, and sovereign portfolio design. Our advisory practice integrates intelligence, analytics, and policy insight — aligning capital deployment with long-term national and generational outcomes.

Institutional Investors:

We partner with global pension funds, sovereign wealth funds, insurance groups, endowments — enabling them to align fiduciary objectives with Africa's industrial resurgence.

Governments and Public Bodies:

We work with national agencies, ministries, development banks, and institutions to co-invest, advise, and execute strategic projects. Our role spans policy design, capital delivery, and on-the-ground operations.

Financial Advisors:

We support advisors with exclusive access to industrial-grade strategies, research, and portfolio solutions — enabling them to serve clients in frontier, impact, and sovereignty-aligned investing.

Individuals and Families:

Invitation-only bespoke legacy clients: they become stewards of wealth, aligned with GIG's doctrine of multigenerational sovereignty.

The Goneke Investment Group (GIG) logo features a sheaf of grain, a timeless symbol of stewardship, abundance, and legacy. Drawing from the biblical story of Joseph, the upright sheaf represents visionary leadership, divine favour, and the power to sustain nations through wisdom and foresight. More than an emblem, the sheaf reflects GIG's foundational belief: that true wealth is cultivated, not extracted—and that prosperity, when rooted in purpose, nourishes generations.

At GIG, we are committed to engineering *sustainable abundance* by aligning purpose with performance. Our investment strategy is built around driving strong E/ACC outcomes—delivering superior earnings relative to capital deployed—through disciplined execution and transformative growth. We target high-impact opportunities in key sectors where decarbonisation and value creation intersect, enabling scalable solutions that unlock enduring prosperity.

Growth for us is not just measured in multiples—it's measured in momentum that uplifts communities, regenerates ecosystems, and compounds over generations. Through our GAP framework—Growth, Abundance, and Prosperity we embed long-term thinking into every investment, ensuring that each decision creates ripple effects of value across economic, social, and environmental domains.

At GIG, community investment is not peripheral—it is core. Our portfolio companies are empowered to operate with intentionality, building capacity and resilience in the regions they touch. Investing with GIG means partnering in a vision that transcends profit, building a legacy defined by sustainable abundance and exponential, equitable returns.
