

Goneke Investment Group | Corporate Profile

Deuteronomy 28:12 (KJV)

“For the LORD thy God blesseth thee, as he promised thee: and thou shalt lend unto many nations, but thou shalt not borrow; and thou shalt reign over many nations, but they shall not reign over thee.”

The Firm

"Noah was instructed to build the ark from gopher wood — precise, enduring, and divinely appointed. Goneke Investment Group is built with the same intentionality, wisdom, and strength. In a world of uncertainty and upheaval, we are an ark for capital and purpose, preserving value through every storm." — **Darren Goneke, Founder, Chairman and CEO**

Who we are

Goneke Investment Group (GIG) is a leading alternative asset manager and private equity firm specialising in complex, high-impact investments across infrastructure, energy, food, health, real estate, and transportation. Since our founding, we've been driven by excellence, innovation, and a deep commitment to preserving value—financial, social, and generational. With a global outlook and deep African roots, we provide strategic counsel and bespoke investment solutions across sectors. Our strength lies in our ability to navigate complexity with clarity, aligning capital with purpose to create lasting impact. At Goneke Investment Group, we don't just manage assets and participate in private equity—we build institutions that scale civilisation.

GIG Overview

We are a leading alternative asset manager and private equity firm

OVERVIEW OF GIG

Goneke Investment Group is a leading alternative asset manager and private equity firm, we build to scale civilisation — engineering systems, institutions, and innovations that make humanity fault-tolerant, future-ready, and capable of enduring across centuries.

Managing an estimated **US\$3.5 billion** in assets, GIG is dedicated to bridging Africa's infrastructure gap, effectively accelerating GDP growth and creating sustainable abundance.

MANDATE

Goneke invests in critical infrastructure—energy, logistics, digital, and transport that empowers African nations to reclaim strategic autonomy. We structure sovereign-aligned, future-proof assets that stimulate industrialisation, enable regional integration, and restore national control over essential systems. Our mandate is to turn infrastructure into instruments of independence not dependency creating lasting value for both nations and investors.

Goneke targets distressed, misunderstood, and high-complexity assets where others see risk, we see reinvention. We unlock trapped value through strategic restructuring, operational turnaround, and narrative transformation. Our mandate is to convert chaos into durable, asymmetric returns by applying clarity, conviction, and first-principles thinking in moments of dislocation.

Goneke builds ventures vital to Africa's future—health, food, finance, education, defence—partnering with founders and governments to engineer institutions, not just startups. Our ventures serve both market and mission. The mandate: create sovereign-aligned, scalable businesses that protect civilisation, drive productivity, and generate generational impact across the continent.

PAMPLEMOUSSES

Private Equity:

We redefine private equity with a focus on transformative impact and sustainable growth. As a leading alternative asset manager, our private equity division specialises in identifying, investing in, and building businesses that create measurable value across multiple dimensions—commercial, social, environmental, and religious.

Real Estate:

We are a world-renowned leader in real estate investing, leveraging our global expertise and extensive presence to deliver exceptional returns for our investors, regardless of the market conditions. We take a thematic approach to investing targeting high-quality assets with significant growth potential, driven by transformative global economic and demographic trends.

Infrastructure:

Our Funds apply the firms tried and tested approach to investing in **CORE** and **CORE+** infrastructure opportunities, predominantly the African Continental Free Trade Area (“AfCFTA”) countries and emerging markets.

Credit:

Our goal is to become one of the largest credit asset managers on the continent. We aim to provide investors with attractive risk-adjusted returns and borrowers with the capital they need to strengthen and grow their businesses.

FINANCIAL ADVISORY:

At Goneke Investment Group (GIG), we stand as steadfast partners to the leaders of businesses and governments, delivering incisive financial and strategic counsel on their most pivotal challenges and opportunities. Our singular purpose is to architect the optimal path forward for our clients, harnessing our expertise to unlock enduring value and drive monumental outcomes. Rooted in Africa's dynamic economic hubs and extending our reach across global markets, GIG blends profound local insight with a world-class network of relationships. This fusion empowers us to navigate complexities with precision, offering perspectives that are both deeply contextual and expansively strategic. Our advisory prowess spans critical sectors—Energy, Food, Health, Media & Entertainment, Real Estate, Sports and Transportation—where our unparalleled depth of knowledge and geographic fluency set us apart as a trusted force in shaping financial futures.

Institutional Investors:

We collaborate with large institutional investors, credit institutions, investment firms, and other financial entities. Our expertise empowers these organisations to achieve their objectives by providing access to innovative strategies, superior asset management, and impactful investments.

Governments and Public Bodies:

GIG works closely with national and regional governments, public institutions, central banks, and international organisations. We provide strategic guidance and investment solutions to support infrastructure development, economic growth, and public sector projects.

Advisors:

Financial advisors and consulting professionals turn to GIG for reliable insights and actionable strategies. We offer resources and support to enable advisors to guide their clients effectively and achieve their financial aspirations.

Individuals and Families:

GIG extends its wealth management services exclusively to a select group of distinguished individuals and families, offering an invitation-only experience tailored to those who share our vision for enduring legacy and financial excellence.

The Goneke Investment Group (GIG) logo features a sheaf of grain, a timeless symbol of stewardship, abundance, and legacy. Drawing from the biblical story of Joseph, the upright sheaf represents visionary leadership, divine favour, and the power to sustain nations through wisdom and foresight. More than an emblem, the sheaf reflects GIG's foundational belief: that true wealth is cultivated, not extracted—and that prosperity, when rooted in purpose, nourishes generations.

At GIG, we are committed to engineering *sustainable abundance* by aligning purpose with performance. Our investment strategy is built around driving strong E/ACC outcomes—delivering superior earnings relative to capital deployed—through disciplined execution and transformative growth. We target high-impact opportunities in key sectors where decarbonisation and value creation intersect, enabling scalable solutions that unlock enduring prosperity.

Growth for us is not just measured in multiples—it's measured in momentum that uplifts communities, regenerates ecosystems, and compounds over generations. Through our GAP framework—Growth, Abundance, and Prosperity we embed long-term thinking into every investment, ensuring that each decision creates ripple effects of value across economic, social, and environmental domains.

At GIG, community investment is not peripheral—it is core. Our portfolio companies are empowered to operate with intentionality, building capacity and resilience in the regions they touch. Investing with GIG means partnering in a vision that transcends profit, building a legacy defined by sustainable abundance and exponential, equitable returns.
