

Important Notice to Residents:

DRAIN/FRUIT FLY — TREATMENT — INSTRUCTIONS

BEFORE TREATMENT — How to Prepare Your Home

1 Remove Food & Items from Counters

- Remove all items from kitchen countertops
- Place open foods in the refrigerator

2 Prepare Drains for Treatment

- Drains will be treated to eliminate larvae
- Make sure all dishes, items, and food debris are removed from the sinks

3 Cover Fish Tanks

- Cover fish tanks and disconnect air pumps for **3 hours**

4 Remove Birds

- Remove birds from home for up to **6 hours**

People & Pets: Everyone (including pets) must leave for **2 HOURS**

AFTER TREATMENT — What YOU MUST Do

1 Do Not Use Sinks Immediately

- Delay sink use as long as possible
- Minimum recommended time: **4–6 hours**

2 Allow Treatment Time to Work

- Do not retreat sinks for at least **14 days**

3 Do Not Use Store-Bought Sprays

- Avoid over-the-counter pest control products
- These can interfere with treatment

4 Maintain Sanitation

- Clean drains and surrounding areas
- Keep garbage cans clean
