

Important Notice to Residents:

FLEA TREATMENT

INSTRUCTIONS

BEFORE TREATMENT — How to Prepare Your Home

1 Remove Items From Floors

- Pick up toys, shoes, pet food, and boxes
- Clear floors, closets, and areas under beds
- Place items on tables or beds (not upholstered furniture)

2 Pet Bedding

- Wash pet bedding in **HOT** water
- Or place bedding in a sealed plastic bag and discard

3 Vacuum Thoroughly

- Vacuum floors, carpets, and upholstered furniture
- Dispose of vacuum contents in a sealed plastic bag

4 Treat Your Pets

- Pets should be treated for fleas
- Treatment should be done by a veterinarian

AFTER TREATMENT — What You MUST Do

1 Stay Out of Treated Areas

- Everyone must leave during treatment
- Remain out for at least 2 hours

2 Delay Cleaning

- Do not wash non-carpet floors for **2 weeks**
- Residual treatment will continue killing fleas

3 Fleas May Still Appear

- Fleas may emerge for several days
- This is normal during treatment

4 Special Safety Precautions

- Cover fish tanks & disconnect air pumps for **3 hours**
- Remove birds for up to **6 hours**
