

Important Notice to Residents:

PANTRY PEST

TREATMENT

INSTRUCTIONS

BEFORE TREATMENT — How to Prepare Your Home

1 Empty Cabinets

- Completely empty cabinets
- Remove shelf paper

2 Remove Dishes & Items

- Move dishes and kitchen items away from the kitchen
- Dishes may stay on the table if covered

3 Open Food Storage

- Place open foods in the refrigerator

4 Drawers & Cabinets

- Remove kitchen drawers if possible
- If drawers cannot be removed, they must be emptied

Everyone (including pets) must leave for 2 HOURS

IMPORTANT FOOD STORAGE

1 Discard Infested Dry Goods

- Throw away foods containing flour or grains

2 Examples of Foods

- Cake mixes
- Pasta or noodles
- Grain products

3 Containers Are Not Safe

- Pantry pests can infest plastic containers, bags, and Tupperware.

4 Freezer Option

- Instead of discarding food, place it in a deep freezer for at least 10 days to kill any pests or eggs
- Food must be in a freezer, **NOT** the refrigerator
