

IMPORTANT NOTICE TO RESIDENTS:

ROACH TREATMENT INSTRUCTIONS

BEFORE TREATMENT — How to Prepare Your Home

1 Kitchen and Bathroom Prep

Empty kitchen and bathroom cabinets and drawers.
Clear off the top of the fridge.
Place dishes on the table and cover them.

2 Food Storage

Store all open food **in sealed containers**.
Remove pet bowls.
Discard exposed grains & snacks.

3 Cleaning

Clean floors and countertops.
Cover fish tanks.

Everyone (including pets) must leave for 2 hours

AFTER TREATMENT — What You MUST Do

1 Don't Clean Treated Areas Right Away

Wait at least **10-14 days** to wipe treated surfaces like baseboards, sinks, and behind appliances.

2 Avoid DIY Sprays or Products

Don't use over-the-counter sprays, baits, or roach bombs — they can interfere with the treatment!

3 Expect to See Some Roaches

Roaches may still be seen for a few days. If you notice slower-moving roaches, the product is working.

4 Keep Things Tidy

Store food in sealed containers, fix leaks, take out the trash regularly.
