

Important Notice to Residents: TERMITE TREATMENT — INSTRUCTIONS —

1 Exterior Preparation

- Keep areas around the foundation clear
- Move items away from exterior walls

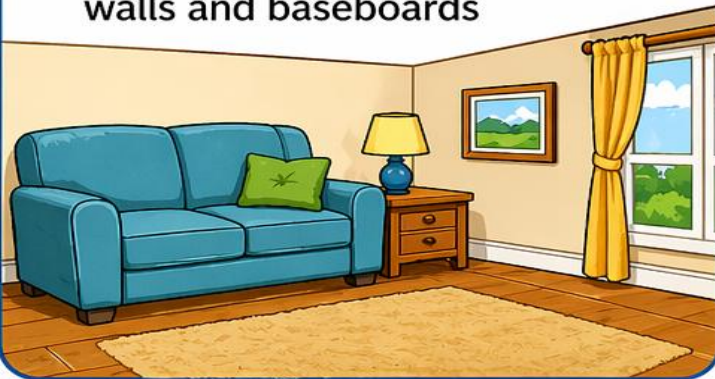

2 Yard & Landscaping

- Trim plants and bushes away from the structure
- Keep mulch, wood, and debris away from foundation

3 Interior Access

- Clear the area where termite activity is present
- Allow technicians access to walls and baseboards

4 Move Personal Belongings

- Move furniture and belongings **3–6 feet** away from the activity
- This allows proper inspection and treatment
