

PROJECT CASE STUDY

Confidential Government Facility – Dubai UAE

Client: Government Entity

Project Duration: January 2021 – June 2021

Scope: Interior & MEP Fit-Out

Project Overview

We were entrusted with the execution and fit-out of a confidential government facility in Dubai. The project required comprehensive coordination across multiple trades, with a focus on quality, precision and timely delivery under strict compliance protocols.

Scope of Work

- Plaster Works
- Electromechanical Equipment Installation & Maintenance
- Carpentry & Wood Flooring Works
- Painting Contracting
- Wallpaper Fixing
- Floor & Wall Tiling Installation
- False Ceiling & Light Partition Installations
- Air-Conditioning, Ventilation & Air Filtration Systems
- Plumbing & Sanitary Installation

Our Role

We managed the full project lifecycle, from the planning to the final handover, ensuring seamless coordination between subcontractors, quality control, and on-site supervision. All works were delivered in line with the regulatory standards and the client's specific requirements.

Outcome

The project was delivered successfully on time and within budget. The facility met all functional and aesthetic goals, with high satisfaction reported from the client
