

LITHICOATZ

LITHIUM SILICATE CONCRETE DENSIFIER, HARDENER, AND SEALER WITH WATER SAVING TECHNOLOGY.

LithiCoatz is a VOC free, environmentally friendly lithium silicate concrete floor densifier, hardener, and sealer. This product penetrates bare concrete surfaces and transforms them into a permanently dust free floor with a gloss that gets better with age.

The water saving technology makes **LithiCoatz** environmentally friendly and easy to apply. There's no scrubbing and no washing. **LithiCoatz** can be applied to new and existing cured concrete. It improves surface durability through hardening and densifying the surface.

BENEFITS & FEATURES

VOC Compliant

Water Saving Tech

UV Stable

Resistant to surface whitening

No Flake or Discolor

Does Not Wear

WHY SHOULD YOU CHOOSE LITHICOATZ?

SEALER

Applying a concrete sealer to your flooring is extremely beneficial.

- Sealing **protects concrete from damage.**
- Sealing **protects concrete from mold and mildew.**
- Sealing concrete **increases, it's longevity.**
- The **appearance of concrete is improved** by sealing.

HARDENER

LithiCoatz improves strength and durability through hardening the concrete surface and prevents the flooring from wearing out prematurely. **LithiCoatz** protects, preserves and strengthens concrete flooring.

DENSIFIER

LithiCoatz fills the porous holes that are formed from water evaporation during the curing process of concrete, similar to how water fills the holes in a sponge. It penetrates the concrete surface and bonds the loose and weak compounds together which increases the surface density, abrasion and resistance.
