

These owners purchased their home in 2016 as third owners and knew at some point they would renovate the kitchen. After living with the kitchen for 5 years, they were ready to remodel but needed to select the right company! They were referred by neighbors, who had just completed a bathroom renovation with Wake Remodeling and had an excellent experience.

Wake Remodeling has created a clean, airy, and light kitchen which boasts chef-style premium appliances for the home's cook. We designed an extended semi-custom island with deep pull-out drawers and quartz countertop with a prep station, sink, and additional seating. The perimeter cabinets are full overlay stacked uppers with antique glass doors and quartz countertops. Under-cabinet lighting illuminates the textured tiles, enhancing the decor through solid coloration and a glossy finish to pick up the ambient light. The contemporary black matte hardware and plumbing fixtures boldly stand out against the white backdrop of the kitchen. The pantry door is a custom piece that contributes to the light and airy feel with the frosted glass, which still hides the contents. The single-entry standard height porch door has been replaced with a double entry 8' tall set to allow for the easy ebb and flow of family traffic.

With the guidance of Wake Remodeling's Lead Designer, Lee Anne Martin, the homeowners were able to design the kitchen they envisioned and a space for their family and friends to gather for years to come! We look forward to helping you Dream, Design, and Build your vision with the Wake Remodeling Team!

DIRECTIONS

From Raleigh: I-440 West, Take US-1 South to exit 98A toward Tryon Road, merge onto US-64 E, turn right onto Regency Parkway and continue onto Ederlee Drive, turn right onto Penny Road, turn left onto Kensington Hill Way, and right onto Devonhall Lane.
