

EN-SUITE ADDITION & KITCHEN RENOVATION

V2

VIRTUAL TOUR ONLY

WakeRemodeling.com 919-272-0048

After living in their home for several years, this family of four longed for an upgraded kitchen with a large walk-in pantry, more dining space, an en-suite for guests with aging-in-place features, and a drop zone for sports equipment. Wake Remodeling claimed the additional square footage for the en-suite and the drop zone off the back of the garage. The additional square footage for the kitchen was gained by bumping out the bay window and eliminating the powder bath.

The drop zone features a beautifully made rectified porcelain upon entering the home. The drop zone's custom cabinet piece is painted in Sherwin Williams Smokey Blue, accentuating the blue tones in the tile. It is constructed according to the homeowner's specifications to accommodate basket storage. The cabinet also boasts a natural stained butcher block bench seat with beautiful wood grain detail and J-shaped hooks in brushed nickel.

The en-suite includes a spacious bedroom, a walk-in closet, and a full-size bathroom with a roomy walk-in shower and bench. The unique rectified porcelain tile from the drop zone has been carried into the en-suite bathroom to create a consistent flow of unity among the new addition and existing home.

The bathroom features Wellborn cabinets enhanced by the Blanco Orion countertop with soft grays and pale whites. The shower features Bulevar earth-fired ceramic wavy textured tiles that soothe the senses and catches the ambient light, brightening the bathroom. The shower floor is a polka dot series made from recycled glass, lending its unique quality of no two dots looking alike. All plumbing and hardware fixtures are brushed nickel with the walls painted in Sherwin Williams Crushed Ice, allowing for a hint of color.

Visually attractive are the color zones between the Wellborn perimeter and island cabinets featuring two styles of doors with black matte hardware in the kitchen. These design features were specifically chosen to help integrate cherished family heirloom pieces with the new aesthetics of the kitchen. In conjunction, Sherwin William Silver Stand adorns the walls. The floor stain, Duraseal special walnut, accentuates the floor, tying all the selections and heirloom pieces together for a harmonious design.

Wake Remodeling was able to prepare this family's home for the future and the present. Wake Remodeling's team is here to help you Dream, Design, and Build your next remodeling home project!
