

These homeowners transformed their home into a place they could age-in-place comfortably rather than move. Wood Wise redesigned to have all the essential living areas on one level. Their master bathroom design feels Scandinavian and modern. A curb-free walk-in shower hides a tub and a transom window brings in natural light.

Doors from the new master bedroom lead to a private rear deck with horizontal stainless steel railings. The re-imagined screen porch with vaulted ceiling sits on an original foundation. A new den, just off the kitchen, offers a sanctuary space for relaxing amid interesting design and unique artwork.

SPECIAL FEATURES

- Horizontal stainless steel deck railings
- Curb-free walk-in shower
- KraftMaid cabinets
- Vaulted ceilings at porch, den, and master bedroom
- Under-vanity lighting in half bath
