

Rejoice!

The Rapture! We sing about it, talk about it, pray for it. Millions of saints for 2,000 years have anticipated the rapture of the church. Right now we are at the door of eternity. Right now there is movement of the door latch, ready to swing open. One split second will open a glorious eternity for those prepared; confusion, chaos, sorrow, and pain for those not quite ready. Let's make our salvation secure in Jesus today. Tomorrow may be one day too late!

How Close Are We?

How AI Is Shaping the World the Bible Warned

About. In the past, totalitarian regimes relied on human informants, secret police, and brute force to control populations. The emerging AI-driven, algorithmic-control systems promise to be far more efficient and pervasive - a digital net over humanity that could fulfill the vision of Revelation 13's Beast system like nothing before. Six Years in Prison for Quoting the Bible? A Warning From Finland.

On October 30, the Finnish state will once again drag Päivi Räsänen into court, this time at the highest level, in what can only be described as one of the most brazen assaults on Christian freedom in modern Europe. For the third time in seven years, prosecutors will attempt to brand a grandmother, physician, and long-serving parliamentarian a criminal for the "crime" of sharing a Bible verse online. Think about that for a moment. The nation that once gave the world Nokia and cutting-edge innovation is now spending years and taxpayer money trying to prove that the Book of Romans is hate speech. If they succeed, Finland's Supreme Court will etch into precedent the chilling declaration that God's Word is "illegal speech." This is no

ordinary trial. Two courts have already vindicated Räsänen and Lutheran Bishop Juhana Pohjola. Twice they were cleared. Twice the courts ruled unanimously in their favor. Yet prosecutors refuse to quit. Why? Because the goal is not justice--it is submission. The fanatical push here is to carve into law the idea that quoting the Bible is itself a criminal act. If they succeed, Räsänen and Pohjola could face up to six years in prison. Unless, of course, they do what the state really wants: repent of their faith, renounce the Bible, and bow to the new state religion of sexual ideology. That demand--to "recant or be punished"--should sound familiar. It is the same spirit that drove Rome to throw Christians to the lions. (prophecynewswatch.com 8/29)

California Wanted Girls to Declare Themselves 'Mentally Unfit' Over Gender Views.

In Temecula, California, a chilling policy proposal revealed just how far some school officials are willing to go in forcing gender ideology on children. Girls who felt uncomfortable changing or showering in front of biological boys were told they would need to file mental health accommodation forms--essentially declaring themselves mentally unfit--just to preserve their privacy. Islam vs The West

The Dearborn Heights Police

in Michigan presented the first ever police badge and uniform patch in America with Arabic script. Dearborn is the first city in the US with an Arab majority and a significant center for Islamic presence in North America. (beholdisrael.com 9/5)

Miss Universe 2017. Sarah Abdali Idan of Iraq, a citizen of America and a supporter of Israel, spoke concerning the new proposed police badge in Dearborn Heights. "I'm an Arab-American and I'm not okay with this! Hispanics make up the majority of American immigrants, and they never did this. In fact, no ethnicity in US history has ever done this. This is what happens when people come here and refuse to integrate into

American society. Wake up, America! This is attempted colonization, and if you don't stop it now, you'll regret it later." (beholdisrael.com 9/5)

Has Australia Fallen? Around 350,000 people joined Free Palestine rallies across Australia to "demand an end to the genocide in Gaza and to demand that the government sanction Is-

rael." Not one called for the hostages to be freed. Not one called for Hamas to surrender. "A genocidal army doesn't take two years to win a war in a territory the size of Las Vegas. A genocidal army doesn't send SMS warnings before firing or facilitate the passage of those trying to escape the strikes. A genocidal army would not every month evacuate hundreds of Palestinian children suffering from rare diseases or cancer, sending them to hospitals in Abu Dhabi as part of a medical airlift set up right after Oct 7. To speak of genocide in Gaza is an offense to common sense, a maneuver to demonize Israel, and an insult to the victims of genocides past and present." (beholdisrael.com 9/4)

God Keeps His Promises

Matthew 24:9 “...and ye shall be hated of all nations for my name's sake.”

There's something about Israel that makes people uncomfortable, and it's not what they say it is. Not politics, settlements, borders, and wars. But something deeper; not what Israel does, but what Israel is. A nation this small should not be this strong. A population barely the size of a mid-sized American city. They are surrounded by enemies. Hated in the United Nations. Targeted by terror. Condemned by celebrities. Boycotted, slandered, and attacked. And still, they thrive like no other nation. In military. In medicine. In security. In technology. In agriculture. In intelligence. In morality. In sheer, unbreakable will. They turn desert into farmland. They make water from air. They intercept rockets in mid-air. They rescue hostages under the nose of the world's worst regimes. They survive wars that were supposed to wipe them out, and win. The world watches this and can't make sense

of it. They refuse to acknowledge “the God factor.”

Psalms 105:9-11, “Which covenant he made with Abraham, and his oath unto Isaac; And confirmed the same unto Jacob for a law, and to Israel for an everlasting covenant: Saying, Unto thee will I give the land of Canaan, the lot of your inheritance:”

The Jewish people were supposed to disappear a long, long time ago. That's how the story of exiled, enslaved, hated minorities is supposed to end. But the Jews didn't disappear. They actually came home, rebuilt their land, revived their language, became strong. That's not normal. It's not political. It's biblical. There's no cheat code that explains how a group of people return to their homeland after 2,000 years. There is no rational path from gas chambers to global influence. And there is no historical precedent for surviving the Babylonians, the Romans, the Crusaders, the Inquisition, the pogroms, and the Holocaust, and still showing

up to work on Monday in Tel Aviv. Israel doesn't make sense unless you believe in something beyond the math. This is what drives the world crazy. Because if Israel is real. If this improbable, ancient, hated nation is somehow still chosen, protected, and thriving, then maybe God isn't a myth after all. Maybe He's still in the story. Maybe history isn't random. Maybe evil doesn't get the last word. Maybe the Jews are not just a people - but a testimony. That's what they can't stand. Because once you admit that Israel's survival isn't just impressive, but divine, everything changes. Your moral compass has to reset. Your assumptions about history, power, and justice collapse. You realize you're not watching the end of an empire. You're witnessing the beginning of something eternal. So they deny it. They smear it, and rage against it. Because it's easier to call a miracle “cheating” than to face the possibility that God keeps His promises. And He's keeping them still.

Disney fined for tracking kids online. Disney will pay a \$10 million penalty after the FTC found it illegally collected data from millions of children on YouTube. The company mislabeled videos to target kids under 13 for advertising, violating federal law and parents' trust. (upward.news.com 9/4)

US bolsters Military Presence in Caribbean Near Venezuela Amid Trump's Efforts to Halt Drug Trafficking. The

Trump administration has bolstered US naval and air power near Venezuela, deploying multiple warships and Marine units to disrupt narco-terrorist networks and protect regional maritime routes after a Marine-strike targeted a drug-smuggling vessel linked to Tren de Aragua. (foxnews.com 9/4)

F-35s Moved to Puerto Rico as US Military Build Up in Caribbean Continues.

Ten F-35 stealth fighter jets have been positioned at a Puerto Rico airbase, the latest move toward a continued buildup of US military presence in the Caribbean, as part of a growing effort to combat drug cartel operations that have triggered a rise in tensions with Venezuela. A day earlier, the Pentagon announced that two Venezuelan military planes flew over a US Navy vessel in the Caribbean Sea, calling it a “highly provocative move” intended to interfere with ongoing “counter narco-terror operations.” (epochtimes.com 9/6)

Macabre Gates-Funded Study Chemically Embalms Newborn Corpses for Weeks to Harvest Tissues for AI, Forensics, and Global Surveillance: Journal 'Forensic Science, Medicine and Pathology.' A Gates Foundation-funded autopsy project published last week in *Forensic Science, Medicine and Pathology* reveals newborn corpses were chemically embalmed for weeks so their organs could be harvested, catalogued, and standardized into databases tied to artificial intelligence, forensic investigations, and global mortality surveillance programs. The new study comes after Gates financed the “Baby Open Brains” project, where researchers at the Masonic Institute for the Developing Brain released MRI scans of infants as young as one month old into global AI databases to build the backbone for a nationwide government brain-

tracking program. These were live-born infants, mostly premature and extremely low-birth weight, who died shortly after delivery. Parents were asked to sign consent forms for their newborns' corpses to be used. The study recruited 100 dead infants from the Neonatal Intensive Care Unit (NICU) at Kasturba Medical College in Manipal, India. To preserve the bodies for study, infant corpses were soaked in chemicals. In plain terms, newborn corpses were chemically embalmed for up to two months while researchers harvested their tissues. This wasn't about compassion—it was about creating standardized samples that could be replicated and scaled. (jonfleetwood.com 8/24)

Will the Abraham Accords Stand? The President of the UAE met in Riyadh with the Saudi Crown Prince. They agreed that if Israel annexes territories in Judea and Samaria, withdrawal from the Abraham Accords will be on the table and not only for the UAE: “Annexation will slam the door shut also on the prospects of normalization between Israel and Saudi Arabia.” (beholdisrael.com 9/6)
