Media Ignores Tens Of Thousands Of Christians Converging On Washington DC

Did you hear about the large Christian gatherings in Washington, DC this weekend? Did you see any news reports about the mayhem? The looting? The vandalism? The calls to "Burn it down!"? Oh, you didn't? That's because there was no looting, vandalism and fires at this gathering. There was hardly any police presence at all. It was not needed. The Christians came to pray for the nation and repent for their sins. The two main events were **The Return**, which began Friday night and ended Saturday night,

and **Franklin Graham's prayer march**, which was held from noon to 2:00 PM Saturday. Both events attracted tens of thousands in DC, and The Return was watched by a reported global audience of tens of millions. Worship prevailed. Prayer prevailed. Humility prevailed. Repentance prevailed. Significantly, Saturday was also the day when President Trump announced his nomination of Amy Coney Barrett to replace the late Ruth Bader Ginsburg. Who could have foreseen this? "So, Ruth Bader Ginsburg passes away at the beginning of the Jewish New Year, as the shofar blast is heard, and Amy Coney Barrett is announced as her replacement as shofars were being blasted at The Return event in DC, watched by 10s of millions globally. Coincidence?" On this same day, Saturday, September 26, 2020 major prayer gatherings were held in the Philippines and other nations as well. An Asian leader told me at The Return that three million Indonesian Christians participated in a prayer event just hours earlier. The goal of these gatherings is not to impress people. The goal is not to put on a performance and please the crowds. The goal is to get the attention of our Father in heaven. Only He can turn the hearts of a nation. And only He can hold back His judgment and wrath. That's why these gatherings in DC, with minimal press coverage and without the drama of the protests and the riots, could well be the thing that saves the nation. And while the media may not have paid sufficient attention, we trust that God Himself did. That is what really matters. (prophecynewswatch.com 9/28/20)

Covid 19 Statistics

Analysis: A Dive Into Updated CDC Guidance on COVID-19 IFRs.

CDC Infection Fatality Ratio (updated Sept. 10, published Sept 23)

0-19 years: fatality rate, 0.00003; survival rate, 99.99%, 3 deaths per 100 thousand people.

20-49 years: fatality rate, 0.0002; survival rate, 99.98%.

50-69 years: fatality rate, 0.005; survival rate 99.50%.

70+ years: fatality rate, 0.054; survival rate, 94.6%.

Misstatements and mischaracterizations of Covid 19 stats has driven many people off

the proverbial cliffs, never to return. Most of the blame for this rests with the hyperbolic treatment the media has given to their favorite term, "cases," which they love to tout because it is a BIG number. Never mind that "cases" seems to mean different things in different places! In some places, it means you are counted as a "case" even if you are merely SUSPECTED of having been exposed. It can mean that you are counted as a "case" if you have symptoms but have never been tested. It turns out that "clean" (the absence of other diseases) Covid-19 deaths are a very small portion of the total. As many as 94% of deaths involve the presence of

other diseases that compound the effects of one another. Comorbidity allows coroners, doctors, health departments, etc. to count deaths, that are not directly or primarily caused by Covid-19. I think this is wrong but I don't get a vote. There should be honesty and accountability in the classification of Covid-19 deaths and hospitalizations, not to mention STANDARDIZATION! If you were hit and killed by a train and then shot 12 times, NO ONE would believe that you were shot to death. Yet, what we're seeing with so-called Covid-19 deaths isn't too far removed from that kind of logic. (augustafreepress.com 9/23)
