## The Great Reset 2020

Issue 145, July, 2020

Apostolic Faith Church

V.Julien, Editor

For those not familiar with the phrase "global economic reset", it is one that has been used ever increasingly by elitists in the central banking world for several years. The reset is promoted as a solution to the ongoing economic crisis which was triggered in 2008. This same financial crash is still with us today; but now, after a decade of central bank money printing and debt creation, the bubble is even bigger than it was before. The reset, according to discussions by the IMF, is basically the next stage in the formation of a one-world economic system and potential global government. Many economists often wrongly attribute the Fed's habit of making things worse to "ignorance". They think the Fed actually wants to save the financial system, but this is not reality. The truth is, the Fed is not a bumbling maintenance man, the Fed is a saboteur, a suicide bomber that is willing to destroy even itself as an institution in order to explode the US economy and clear the path for a new globally centralized one-world system. Hence, the "Global Reset".

Then came the coronavirus. This seems to fall in line with the solutions offered during the Event 201 pandemic simulation that was held by the Bill and Melinda Gates Foundation and the World Economic Forum on October 18, 2019, only two months before the REAL THING happened at the beginning of 2020. Event 201 suggested that one of the top solutions to a pandemic would be the institution of a centralized global economic body that could handle the financial response to the coronavirus.

Is it not convenient that the events of the real coronavirus pandemic fall exactly in line with the Event 201 simulation, as well as directly in line with the global reset plans of the IMF and the World Economic Forum? As they say, let no crisis go to waste; or as the motto of the globalists, "Order Out of Chaos". The global reset is not a "response" to the process of collapse we are trapped in today, but is the cause of the collapse. The collapse is a tool for global government. Prince Charles said at the opening of a World Economic Forum (WEF) virtual meeting last week, "The recovery from the coronavirus crisis represents an opportunity to reset the global economy and prioritize sustainable development without further damaging the planet." The Great Reset initiative was part of their Covid Action Platform. Now we see the globalist plan coming to fruition with the elites revealing what appears to be their intent to launch their reset at the annual summit in January, 2021 when they will discuss their plans more openly with the public and mainstream media.

Economic disaster serves the interests of elitists. The collapse will be sped up using the 11,000 youth activists in more than 400 cities in 170 countries named the Global Shapers Community. They will be interconnected with a powerful virtual hub network to interact with the leaders in Davos at the 2021 annual meeting. Klaus Schwab, founder of the WEF, even clarified that this pandemic offered a "rare but narrow window" to reimagine and reset our world.
