News headlines related to biblical prophecies about the end times.

A Victorious Future

God's church has a brilliant, shining future. We will not cower to the fear that the enemy places in our paths, but will move forward as offensive conquering soldiers of the King.

Let us make sure we have on the full kingdom armor.

(Eph. 6:14-18) *"For we wrestle not against flesh and blood, but against principalities, against powers, against the rulers of the darkness of this world, against spiritual wickedness in high places"* (Eph. 6:12).

Soon God will catch away His bride; our battles will be over; our eternity in His presence secure. While we rejoice in heaven, Israel and all the kingdoms of man will come under the wrath of God during the great tribulation culminating at the Battle of Armageddon. God will then turn back to the remnant of Israel and set up His kingdom on earth where righteousness will reign. Finally there will be peace on earth and good will toward men.

(Rev. 16:14 - Rev. 19:11-21)

Stay on the offensive for the Kingdom. We are victors and we're almost there.

Pope Blesses Economic Council

Twenty-seven leaders of the world's biggest businesses including CEOs of Bank of America, Johnson and Johnson, Salesforce, and MasterCard, recently announced a partnership with the pope (*NBC News*, December 8, 2020). The Council for Inclusive Capitalism recently met with the Vatican and intends to "create a more inclusive, fair, and sustainable economic landscape by taking pledges toward sustainable development goals focused on areas such as climate action, peace and justice, quality education, and gen-

der equality." In the past, the pope has made negative statements about capitalism. However, he recently stated that "an economic system that is fair, trustworthy, and capable of addressing the most profound challenges facing humanity and our planet is urgently needed." The Council's members represent over \$2.1 trillion in capital investments and over 200 million workers. The group plans to meet each year with Pope Francis. Revela-

tion 18 makes clear that a coming European "beast" power will wield tremendous influence on global trade at the end of this age. This economic powerhouse will be backed by a great church, as described in Revelation 13 and 17. For students of Bible prophecy, it should be no surprise to see the Vatican involving itself in global trade. The Roman Catholic Church has a long history of being involved in international dealings and mone-

The Great Reset - World Government

'The Great Reset' is Just an Updated Blueprint for The New World Order. The New York Times put out fake news when they told all of us that "the Great Reset" is just a "conspiracy theory", and they owe all of us a major apology. According to the World Economic Forum, "the Great Reset" is a "unique window of opportunity" for global leaders to shape "the future state of global relations, the direction of national economies, the priorities of societies, the nature of business models, and the management of a global commons". Every country from the United States to China must participate, and every industry from oil and gas to tech must be transformed. In short, we need a "Great Reset" of capitalism. That definitely sets off alarm bells. When people start talking about dramatic changes to capitalism, usually what they mean is that we should move even more in the direction of socialism. According to Schwab, there are three main components to "the Great Reset". (1) The reforming of our economic systems so that they will "promote more equitable outcomes." (2) Involves massive government investments in "green" urban infrastructure and other similar projects." (3) Schwab envisions applying the "innovations" that we have witnessed during the COVID pandemic as a model

for "every sector" of society. In other words, he thinks that the global response to the COVID pandemic can be a blueprint for governing every area of our lives moving forward. The globalists envision a "sustainable" future in which all forms of human activity are very closely monitored and controlled for "the good of the planet". Of course in order for the globalists to get the United States on board with this "Great Reset", they will need to get Donald Trump out of the way first. President Trump is a Nationalist, unwilling to surrender our citizens to global laws.

The annual meeting of the World Economic Forum has been postponed from January to early summer to assure the safety of the health of its partners. During January, the Forum will digitally convene high-level "Davos Dialogues". Since February, almost 1,800 organizations from business, government and civil society have joined the WEF's COVID Action Platform following the outbreak of the pandemic. In September, the Forum's Sustainable Development Impact Summit will bring the core principles of the Great Reset into focus, asking all of us how we can contribute to a more sustainable and inclusive future. How Far America Has Fallen!

Next In The Queue: Polyamory Movement Demands Acceptance.

Pro-family activists said that polygamy and polyamory would be next in the queue after marriage was redefined by Obergefell, and everything is unfolding right on schedule. Children are usually involved and utilized as evidence that legal recognition of alternative family arrangements are necessary. Finally, the courts cave, predictably announcing that they are only recognizing an already-existing reality rather than making a substantial change. California, 2017, a "throuple" of men successfully petitioned a judge to put all three of them on the birth certificate of a little girl named Piper. The three homosexual men discussed having children and were offered embryos by a female friend. The men had been given children, and now they needed to rent a womb. Another friend offered to be the surrogate for the embryos and Piper was born,

followed several years later by Parker. Now, the three men just needed legal recognition for their arrangement and appealed to a San Diego judge to be recognized as three fathers. "She looked at all the options and found a way to use existing laws to give us the first birth certificate of its kind anywhere." This, predictably,

has been hailed as a landmark loophole for polyamorous throuples and a potential path to legal recognition for a variety of arrangements. (prophecynewswatch.com 12/20)

NASDAQ Threatens to Drop Companies

That Don't Hire LGBT Board Members. In a bombshell announcement, the stock exchange is threatening to drop companies who don't meet certain LGBT, race, and gender quotas on their boards of directors. It's the latest shoe to drop in the march to trample the free market and replace it with woke activism.

Congress Has Officially Gone Gender

Crazy. The opening prayer for the 117th Congress was offered in "the name of the monotheistic God, Brahma, and 'god' known by many names by many different faiths." And it concludes with, "Amen and A-woman."

Additionally, gendered terms such as father, mother, son, daughter, brother, sister, husband, wife etc. will not be used in Congress but replaced with terms such as parent, child, sibling, spouse, etc. Because of where this "insanity" could lead, it should be taken with all seriousness. We can be compassionate to people in their struggles without engaging in gender madness. (onenewsnow.com 1/5)

Franklin Graham: Hatred toward Christians

Incredible. "I think we are in a moral freefall in this country," he said. "And the only hope for our country is God. And for that to happen we've got to come to Him in repentance, turning from our sins, and putting our faith and trust in Jesus Christ. (endtime.com 11/27)

Is the Stage Being Set for the Third Temple?

Top Gaza Academic: Palestinians Fear UAE Will Help Israel Build 3rd Temple.

"And it shall come to pass in the last days, that the mountain of the LORD's house shall be established in the top of the mountains, and shall be exalted above the hills, and all nations shall flow into it" (Isaiah 2:2).

In a recent op-ed in the *Middle East Monitor*, Dean of Political Science at the Umma Open University in Gaza, Dr. Amer, lamented the UAE's alleged foothold in the Temple Mount and more specifically the Al Aksa Mosque. Amer accuses the Emiratis of having a record for selling real estate they acquired to a Jewish organization. This development is reason to believe that the UAE will help Israel build the third Temple saying: "This raises the Palestinians' fear that the next stage might signal the start of building the alleged synagogue

with the contribution of the UAE authorities." Amer backs his claim with the fact that the UAE already constructed a Hindu temple in Dubai and opened a synagogue in Abu Dhabi. The professor also says that Israel, with the help of Sunni Gulf states such as the UAE, Jordan, and Saudi Arabia is making an attempt to push Turkish influence out in Jerusalem. Another Israeli Lawmaker Enters Temple Mount, Calls for Building

3rd Temple. Nissim Vaturi, a new member of Knesset and resident of the Golan firmly established his political path with a powerful act of faith by ascending to the Temple Mount on Sunday and praying. He stepped up, representing a unique and necessary voice in

the government. He stated, "Someone who represents Israel cannot be disconnected from

the Creator. We are all anticipating the Redemption. This is far more important than anything material." Vaturi admitted that the experience was powerfully personal but he took the opportunity

to make a nationalist expression. Vaturi is the second Likud Knesset member this month to not only enter the Temple Mount, but to call for the construction of the third Temple.
