Even Europe Is Warning Against Importing America's Poisonous Progressivism.

The U.S. was a shining city on a hill, and anyone who insinuated otherwise was met with offended aggression. The reality is that America has, over the past-half century, been the primary exporter of cultural poison through Hollywood films, TV, music, the sexual revolution, and digital pornography. Abortion and the LGBT agenda are relentlessly pushed on more conservative nations with peoples who still hold to the values America has abandoned. The Daily Mail and the New York Times are reporting that prominent politicians and academics in France are expressing concern that as America plunges towards progressive radicalism, other unwilling nations are being dragged along for the ride as their own young people follow the progressive Pied Piper. Dramatic Fish and Insect Population Drop Could Bring Global Famine. "The World's Forgotten Fishes" says that 80 freshwater species, which make up more than half of all the world's species, have already been declared extinct, with 16 dis-

appearing in 2020 alone. Migratory populations have declined by more than three-quarters since the 1970s, while populations of larger species, weighing more than 60 pounds, have fallen by an even more "catastrophic" 94 percent. If you think that this has happened because global temperatures may have ticked up a bit, you aren't being rational. About 200 million people across Asia, Africa and South America rely on freshwater fishers for their main source of protein and about one-third of those people also rely on them for their jobs and livelihoods. Surprise: New 'Covid' Bill Contains Billions of Non-Related Spending . A top budget watchdog just warned that the budget-busting legislation, which costs roughly \$13,260 per federal taxpayer, is full of spending that has nothing to do with the pandemic. Only about 1 percent of the entire package goes toward COVID vaccines, and 5 percent is truly focused on public health needs surrounding the pandemic. (prophecynewswatch.com 2/19)

A Child Cannot Responsibly Choose to Change His/Her Gender. Senator Rand Paul is being labeled transphobic by the leftist media for his remarks Thursday to the assistant health secretary nominee, Rachel Levine. Paul explains that his statement to Levine about gender changes for children

had nothing to do with HER. Rather, it is obscene to think a child responsibly could choose to change his or her gender, an irreversible decision, that the child likely would regret years later. (Glenn Beck Radio 2/26)

Two Representatives Push for Censorship of Conservative News Outlets. According to Breitbart, Reps. Anna Eshoo and Jerry McNerney, both of California and both senior representatives on the House Energy and Commerce Committee, sent letters to numerous cable, satellite, and video streaming companies, asking them if they planned to continue carrying the conservative networks. They said Fox News, Newsmax, and One America News Network spread "misinformation" primarily because the reporting doesn't fall in line

with their liberal way of thinking. (afa.com/thestand 3/1)

"Blue's Clues & You!" Displays LGBT Pride. On the TV program for preschoolers, is an alphabet song for kids. It sounds innocent enough, but parents should be aware of the not-so-subtle and very pro-LGBT agenda included in the song's video. Every time the letter "P" is displayed, it is illustrated with a rainbow design in the shape of the letter. Some of the lyrics and images heard and seen in the video: 1) P is full of pride! 2) Images of 9 LGBT flags are displayed with the letter P, and 3) The alphabet helps me be me. This network indoctrinates preschoolers by exposing them to the LGBT lifestyle and presenting it as normal. (afa.com/thestand 3/1)

The Equality Act, Anything But Equal

The Equality Act - What You Need To

Know. To be clear, you should only care about the Equality Act if you are a Christian, or a person of faith, or a woman, or own a business, or run a non-profit, or go to school, or teach at a school, or are a medical or mental-health professional, or (especially) are a female athlete, or under the age of 18, or ever use a public restroom. That's not an exaggeration. In fact, here is the exact wording from the Equality Act, "any establishment that provides a good, service, or program, including a store, shopping center, online retailer or service provider, salon, bank, gas station, food bank, service or care center, shelter, travel agency or funeral parlor, or establishment that provides health care, accounting or legal services," along with any

organization that receives any federal funding." "Medical doctors, secular and religious, whose expert judgment is that sex-reassignment procedures are misguided would now run afoul of our civil-rights laws. If you perform a mastectomy in the case of breast cancer, you will have to perform one on the teenage girl identifying as a boy. All in the name of equality." Shelters for battered women would be forced to admit biological males. Prisons would not be able to protect female inmates from predatory males who claim to be females. Biological males will be given the opportunities, scholarships, and championships of female athletes. In addition to these effects, the Equality Act would bring with it three broad, sweeping changes. First, specific conscience protections of the Religious Freedom Restoration Act, which have

long been legal priorities, would be circumvented in cases deemed discrimination based on gender identity or sexual orientation. Effectively, conscience rights considered religiously-based would be tossed aside. Finally, the Equality Act would have a dramatic impact on education, public or private. According to a new coalition called "Promise to America's Children," a coalition I'm proud to be a part of, the Equality Act greases the skids for even more graphic curricula "about sex, abortion, and politicized ideas about sexual orientation and gender identity ideology." "Not only that, but as federal legislation, this would affect every state, not just progressive ones, "overriding efforts by concerned parents and community members at the local level." **The Equality Act has passed in the House and has been sent to the Senate. It is time to pray, saints.** (prophecynewswatch.com 2/26)

Gen Z Describe Themselves as 'Religiously Unaffiliated' and 'Isolated'.

Josh Packard, executive director of the Springtide Research Institute has published the report "State of the Religion & Young People 2020". He surveyed more than 10,000 American youth, ages 13—25. Nearly 40% describe themselves as "religiously unaffiliated". However, 60% of those young people not involved with organized religion consider themselves "spiritual", and 19% said they attend religious services at least once a month. One in ten said they have become more religious in the last five years and 28% say they try to live out their religious beliefs in their daily life. One in six Gen Z identify as LGBT. Spiritual Warfare and End-Time Prophecy Collide. I must say that right now as I study the Bible and watch world events unfold I sense that we are absolutely NOT going to return to anything close to "normal". And I don't think our country will be saved by a new election in 2 or 4 years. The ONLY thing that can possibly save our country would be a large-scale national revival. As much as I long for that, I don't see it in Scripture. I do, however see a great falling away in the end-

times. I see a weakening of America (no country will come to Israel's aid militarily in the future war of Ezekiel 38). I think the Church needs to wake up from our slumber and realize the night is nearly over. We don't know the day, the hour, or the year but we can "see the day approaching" (Hebrews 10:25) and all indicators that this world is currently in the final phases of Romans 1, 2 Timothy 3, and 2 Peter 3, etc. The gloves are off. The spiritual warfare is palpable. The low-level persecution of true Christians has begun and will intensify. The falling away is accelerating. Deception and great delusion are oozing their way through every open crack. The tidal wave of evil builds just beyond the event horizon. The rapture of the Church will remove the 2 Thessalonians 2:7 restrainer. Until then the salt still delays the decay, at least as much as it is still salty. (prophecynewswatch.com 2/17)

The Iowa State Senate Prays to Allah --

Twice. The Iowa State Senate opens each session with a prayer. On February 8, State Senator Sarah Trone Garriott "shared a prayer" written by one of her constituents who was a Muslim. The prayer was to Allah and included references to a number of Al-

lah's 99 names even though there are no Muslim members of that senate. And it is even more interesting that these state senators bowed their heads in prayer to a god who curses Christians and Jews and condemns them to hell. (prophecynewswatch.com 2/13)

Marxist Infusion Coming to School

Are the Recent UFO Disclosures Setting Us Up for a Mass Deception? Have you noticed that UFO sightings have been in the news a lot lately? Even in the midst of all the other big events that are happening, evidence of mysterious objects flying through our skies continues to make headlines. In particular, what one American Airlines pilot says that he saw is really shaking a lot of people up. (prophecynewswatch.com 3/2) This could be used as a convenient explanation for the missing people when the Church is raptured.
