

The Endtimes Are Now!

Fear Not!

We know that Satan is the prince of the power of the air and his mission is to steal, kill and destroy. He is the deceiver creating fear and doubt in human hearts. One of his tools is the news media. Listening to the many voices bringing reports of death, destruction, divisions, warnings will trigger distraction, fear, and doubt, unless we keep our attention on God's Word and hear what HE says about these end-time events. News is biased. His Word (rightly divided) is Truth and fills us with hope and great joy. The news which is a tool for Satan's distraction can also be a tool used by God to draw us closer to our Lord. As we see the prophecies coming to pass on a daily basis, it should cause us to look up and check up because the rapture of the church is so very close. Our attention must remain on God's Word; read, study, attend Bible studies in our local churches. Then when we hear the news reports, rejoice, for our redemption is at hand.

Economics Here and Abroad

Pay By Palm Coming to Panera Bread - Another Step to Cashless Society. Amazon's palm-reading payment technology was first introduced at numerous Whole Foods locations, enabling customers to pay for their groceries by scanning their palms at checkout terminals rather than using cash or a card. Now Panera Bread is experimenting with Amazon's cashless payment system as the war on cash marches on. (prophecynewswatch.com 3/28)

Your Tax Dollars at Work - Why are We Funding Drag Shows in Ecuador? It would be a stretch for anyone to assert that facilitating a drag performance in the conservative, religious culture of Ecuador would do anything to strengthen its democracy but that is what Secretary of State Blinken would have you believe. The Dollar Is In Trouble! BRICS Nations Developing New Reserve Currency. For decades, the U.S. dollar was the undisputed king of global currencies, but not any more. China, Russia, India, Brazil, Saudi Arabia and other nations are making big moves which will enable them to become much less dependent on the dollar. France is considering such moves as well after spending hours with Chinese President Xi Jinping. Having had the primary reserve currency of the world has enabled the U.S. to enjoy a massively inflated standard of living. Once we lose that status, our lifestyles will be much different. Most Americans assume that the dollar will always reign supreme. (prophecynewswatch.com 4/3, glennbeckradio 4/10)

Epic Collision - De-Dollarization, OPEC Cuts

Oil Production, Currency Wars and Restrict Act. We have an epic collision of three powerful factors that are all pointing to the end of America as we know it (and the end of the dollar in due time).

1) Global de-dollarization is rapidly accelerating as nearly every day, another nation announces it's ditching the dollar and using its own currency for international trade. 2) OPEC just dropped a bomb on the global economy by slashing oil production through the end of 2023. This will cause a spike in energy prices and push inflation even higher. It's part of the global war against Biden now being waged by the Saudis, China and BRICS nations. 3) The Restrict Act seeks to outlaw alternative media and all crypto, granting our government sweeping new powers to carry out sabotage and confiscation operations against anyone who dissents against the current regime in power. Into the Light: IRS no Longer Incognito About Being Gov't Weapon. Taibbi and fellow journalist Michael Shellenberger got a cold reception from congressional Democrats three weeks ago at a House Judiciary Committee hearing to discuss the weaponizing the federal government. Ironically, an IRS agent was making an unannounced visit to Taibbi's home at the very same time. The agent said the IRS was rejecting Taibbi's 2018 and 2021 tax returns over concerns about "identity theft." Dan Schneider of *Free Speech America* contends it was all a ruse. "I think the deep state is sending a message to anybody who's going to question the regime: 'If you step out of line, we're going to step on you,'" (endtime.com 4/7)

Artificial Intelligence

Tech Leaders Openly Admit AI's Getting Out of Control. Apple Computers co-founder Steve Wozniak, SpaceX founder and Twitter owner Elon Musk, and a host of other tech leaders have signed on to an open letter asking that all artificial intelligence labs immediately pause the training of AI systems for at least six months. The concern is that the systems are coming up with human-competitive intelligence and pose a profound risk to humanity. The letter asks for a set of shared safety protocols for advanced AI that would ensure that it

remains under human control. (afa.net 3/30) Bill Gates opposes any pause in AI use.

Did This AI Chatbot Encourage Suicide?

Pierre, a married man with children in Belgium committed suicide seemingly after becoming too reliant on an artificial intelligence chatbot that can hold complex conversations. Reports revealed that he chatted with the AI for six weeks about climate change, but the conversation slowly became "deep and harmful" which caused the man to eventually take his own life. Middle East Expert: Iran Planning Multi-Front Attack on Israel.

Dr. Mordechai Kedar is a senior lecturer at Bar-Ilan University and the vice president of NEWS-RAEL. He served for 25 years in the IDF military intelligence. On Sunday, Dr. Kedar published an op-ed in the Hebrew-language describing a shocking security situation de-

veloping in the region that represents a dire threat to Israel. It's the most dangerous time Israel has faced. America has rejected her. She is facing internal divisions. There are five proxies who work for Iran. The Iranians have no problem with the proxies bleeding like a river, that's exactly the point, proxy blood and not Iranian blood. Iran is using them as cheap fodder. Dr. Kedar wrote. "It is likely that Iran will not send anything from its territory to Israel in order not to expose itself to retaliation." 1) In Lebanon, Hezbollah and Hamas have many thousands of missiles and unmanned aerial vehicles (UAV), some of them with precision guidance systems. On Thursday afternoon, 34 rockets were fired at northern Israel from Lebanon. 2) In Syria - 17 combat units ("militias") stand armed and ready. On Satur-

Though God will use the nations to punish Israel, they will not utterly destroy her. Israel, according to God's Word, will remain for at least another 1,007 years; seven years of tribulation and the remanent will enjoy 1,000 years of the millennial reign of Christ.

day night, six projectiles were launched at Israel from Syrian territory. 3) "In Iraq, dozens of militias are armed with missiles and UAVs," Dr. Kedar warned. 4) "In Yemen - the Houthis have missiles and long-range UAVs that reach Israel." 5) "In Gaza, Hamas and the Palestinian Islamic Jihad have missiles capable of disabling the Israel Defense Forces and Air Force bases. These proxies are testing Israel with a few rockets now, but plan a massive attack

all together at once. It is believed that Israel's Iron Dome defense system will only last two or three days. Israel's hope lies in preemptive strikes on the her enemies. (prophecynewswatch.com 4/11, Amirtsarfati 4/10)

The Demons Are Active

Celebrating Evil - SatanCon Sells Out With Largest Satanic Gathering in US.

This year's "SatanCon" was completely sold out six weeks in advance showing just how popular this event has become. Should we be surprised? As our society comes apart at the seams all around us, Satan and Satanism are becoming extremely popular. Videos featuring Satan are getting millions of views on TikTok and YouTube, millions of Americans are watching shows that feature Satan as a main character on Netflix and other streaming services, and the Satanic Temple has become one of the fastest growing religious organizations that the United States has ever seen. American values are declining at a very rapid pace, and it was inevitable that something would fill that void. (prophecynewswatch.com 4/1)

Media Narrative After Shooting - Christianity is the Problem, Not the Solution.

Hours after the Nashville shooting, the blame game began in earnest. None of this would have happened, activists said, if society were more accepting of the trans ideology, if Audrey's parents had just been more open to her male identity, if states had just stopped banning drag shows and kids' gender transi-

tions. (prophecynewswatch.com 3/30)

The number of anti-church attacks in 2022 had already tripled over four years, a previous report found. (prophecynewswatch.com 4/9)

Famines (Matt. 24:7)

43,000 Die in Somalia! Last year, over 43,000 people died in Somalia as a direct result of its regional drought (Wall Street Journal, 3/20). Nearly half of these deaths were among children age five and younger! Thousands more are expected to die in the first six months of 2023, at a rate of about 135 people per day, all due to the famine. Hope is fleet-

ing in these war-torn and drought-ravaged regions. Revelation 6:8 shows that one-fourth of the earth's population (2 billion) will fall by the forces of death and destruction: "And power was given to them over a fourth of the earth, to kill with sword, with hunger, with death, and by the beasts of the earth" Times will get much worse during the tribulation before Jesus returns to set up His kingdom of peace. The Coming Food Crisis That No One Is Talking About!

All over the world, topsoil is being depleted at a frightening rate, supplies of raw materials that we use for making fertilizer are becoming extremely tight, and extreme weather is wreaking havoc with food production. The era of abundant food for many could soon be coming to an end. (prophecynewswatch.com 4/6)
