DNA Sale!

The last two decades have witnessed monumental advances in the field of genetics. Scientists are learning how to turn genes on and off and how to program organisms in the language of genetics. In their work, some scientists buy and sell the genetic sequences of various bacteria and viruses. Many presume, given the high potential for danger, that such research is strictly and safely regulated. However, health and medicine news source *STAT* reports that a research team from MIT, in cooperation with the FBI, tested the effectiveness of current controls by attempting to purchase "gene-length DNA fragments that could be used to generate the 1918 influenza virus, which killed more than 50 million people" (May 8, 2024). The team took minimal steps to mask their identity. They even requested to have genetic material sent to non-laboratory locations. Of 38 providers contacted, 36 shipped the genetic material for the 1918 flu virus. Only one company detected a hazard and requested proof of biosafety approval. This experiment demonstrated just how easy it would be for a rogue nation or terrorist group to obtain the genetic material needed to create a devastating bioweapon.

"But thou, O Daniel, shut up the words, and seal the book, even to the time of the end: many shall run to and fro, and knowledge shall be increased." (Daniel 12:4)

The Church Reflects God's Light

When you run your race, you run it looking at Jesus, the author and the finisher of our faith. No one ever can know the timing of the rapture, but we know the times and the seasons, and we all can agree we are in the last days. Remember that in these last days and in the days to come for your won-

derful country, everybody's going to look at you, because you're the light of the world. You're the salt of the earth. You're the one that should make a difference. You're the one that knows the answer. You're the one that heard the gospel. You are the one that lives your faith. If you are

panicky, if you are unstable in your faith, if you are weary and troubled, what will the non-believers say? They're going to look at you. And I want to remind you that these dark days are the best days for the church to shine its light. So, let's finish the race. (Amir Tsarfaty, beholdisrael.com 6/4)

World News

International Criminal Court Prosecutor Threatens United States Senators.

Many critics thought the International Criminal Court had gone too far when its prosecutor asked for arrest warrants against Israel's Prime Minister Netanyahu and Defense Minister Gallant. Thereafter, 12 US Senators wrote to the ICC. The final paragraph of their letter, "The United States will not tolerate politicized attacks by the ICC on our allies. Target Israel and we will target you. If you move forward with the measures indicated in the report, we will move to end all American support for the ICC, sanction your employees and associates, and bar you and your families from the United States. You have been warned." The ICC office replied, "When individuals threaten to retaliate against the Court or Court personnel.... such threats, even when not acted upon, may also constitute an offence against the administration of justice under Art. 70 of the Rome Statute...." The 12 US Senators are *already* criminals, according to the ICC Prosecutor, for writing their letter— even if absolutely nothing else happens. (gatestoneinstitute.org 5/29)

Believe Your Own Eyes – The Signs of Imminent Collapse are Undeniable.

After the collapse of our western financial and government system, people are going to say it was "obvious" that the collapse was imminent because the signs were everywhere. But right now, just before the collapse runs its course, most people are still in denial. I say believe your eyes. The signs of insanity, incompetence, corruption and fraud are undeniable, powerful indicators that we are rapidly approaching the end-game chapter of this civilization saga. (naturalnews.com 5/22)

Palestinians Building a Professional Army Under Our Noses.

Members of the PA security forces are being sent to Pakistani military academies to receive professional military training that will enable

them to serve as officers in a Palestinian army currently being built in Judea and Samaria. The program includes training on artillery, sniper rifles, machine guns, parachuting, and more. (israelnews365.com 5/22) (Read Matt. 24:16-21)

Kenyan Officers in Haiti. Kenya will deploy police officers to Haiti to lead a UN-authorized multinational mission to quell gang violence. One thousand officers, some of whom have experience fighting Islamist insurgent groups near Somalia, will work with 1,500 others from Bahamas, Bangladesh, Barbados, Belize, Benin, Chad and Jamaica. This security force is largely financed by the US. More than 1,500 Haitians have been killed so far this year, and hundreds of thousands have fled as gangs control 80% of the capital of Port-au-Prince. One of them, the Crips-inspired 5 Segonn, is among the country's leading cocaine traffickers, with ties to the 2021 assassination of Haiti's president. Haiti's main airport reopened for the first time in three months. (1440dailydigest.com 5/24)

Who Is Funding the Pro-Hamas Protests? In addition to the funding from wealthy globalists, US taxpayers are funding these anti-Israel protests through the EPA. "U.S. Senator Shelley Moore Capito, Vice Chairman of the Senate Republican Conference and Ranking Member of the Environment and Public Works (EPW) Committee... discussed oversight findings from the EPW Committee that revealed a \$50 million grant was awarded from the EPA through the *Inflation Reduction Act* (IRA) to 'Climate Justice Alliance,' a group that engages in pro-Hamas, anti-Israel, and anti-Semitic activities." End-Time Health Issues

UN News. “The WHO’s historic decisions taken today demonstrate a common desire by member States to protect their own people, and the world’s, from the shared risk of public health emergencies and future pandemics,” said Tedros Adhanom Ghebreyesus, WHO Director-General, while committing to finalize negotiations on a global pandemic agreement within a year at the latest.

Scientists Develop Machine That Can Read Human Thoughts, Translate to Text in Real Time.

Scientists at the California Institute of Technology are claiming to have developed a machine that can read a human’s mind and translate thoughts into text in real time. The machine was found to have an impressive accuracy rate of 79%. (endtime.com 5/24)

What’s Behind the Fearsome Tide of Autoimmunity.

Instead of attacking cancerous cells, viruses, bacteria and other pathogens, our immune systems are increasingly attacking our own bodies. More than a hundred different types of autoimmune diseases, afflict millions of people. Research published in *Arthritis & Rheumatology* in 2022 found antinuclear antibodies, the most common biomarker of autoimmunity, have increased nearly 50% in the US in less than 30 years. Normal antibodies help the immune system identify and neutralize invaders but antinuclear antibodies (ANAs) attack our own cells. Teenagers have experienced a nearly 300% increase in ANAs between 1988 and 2012. (theepochtimes.com 5/24)

Control is the Name of Their Game.

In the May issue of *The Endtimes Are Now!* I had three news items about Bird Flu. The UN, the US government, and the media continues the drum roll. A flu that has been around for 144 years with no effects on humanity is being thrown out as a possible catastrophic pandemic. The fear of Covid allowed governments to usurp great control over the people. Why do they continue to “play” with gain-of-function research? Control? Depopulation? Bioweapons?

UK Scientists Used CRISPR Gene Editing to Make Chickens Resist Bird Flu — Here’s What Happened.

The

gene editing that protected the birds also caused the virus to replicate more efficiently in human cells. (childrenhealthdefense.org 5/31)

Unvaccinated Kids Are Healthier Than Vaxed— Why Aren’t Public Health Agencies Investigating?

Research shows vaccinated children experienced significantly higher instances of health issues, including allergies, asthma, behavioral issues and gastroenteritis. In 1962, children received five vaccine doses. As of 2023, children receive 73 doses of 16 different vaccines. After we passed the 1986 *National Childhood Vaccine Injury Act*, the use of vaccines exploded and the chronic illness rate, neurological and autoimmune disease exploded as well. None of the routine vaccines on the CDC’s recommended schedule was ever put through long-term double-blind placebo-based safety trials prior to licensing which is the only way to establish that they are safe. U.S. Government ‘Cartel’ Paid Billions to Reject Ivermectin Prescriptions, Push COVID Shots.

A “cartel” led by the U.S. government allegedly bribed large pharmacy chains like Walgreens and CVS with billions of dollars in contracts to promote Covid-19 vaccines and not fill prescriptions for Ivermectin, a drug that was “baselessly maligned” by the government, media and medical establishment despite its demonstrated efficacy against Covid-19. Former CNN anchor Chris Cuomo suggested he was injured by the Covid-19 vaccine, and was taking Ivermectin to treat his symptoms. Cuomo admitted, “We were given bad information about Ivermectin,” and asked, “The real question is, why?” Meanwhile, a new clinical trial demonstrated the drug’s ability to reduce ICU admissions by 83% in Covid-19 patients.

Bill Gates Predicts mRNA ‘Vaccine Factories’ Worldwide.

There’s going to be a lot of money put into innovation of the mRNA technology and lipid nanoparticles,” medical commentator John Campbell, Ph.D., said on a recent episode of his YouTube show. Campbell cited a recent interview with Bill Gates where Gates laid out his vision for global health. “We just need to mess around” with it in the next five years, he said to make it so. Soon there will be “factories worldwide that can make \$2 vaccines for every disease, Gates said. Gates is a globalist with lots of money, not a research scientist or doctor.

Tattoos May Increase Risk of Lymphoma by 21 Percent, Study Finds.

Getting a tattoo is correlated to developing a rare type of blood cancer, regardless of the size of the tattoo, a new study has found. “It is important to remember that lymphoma is a rare disease and that our results apply at the group level. The results now need to be verified and investigated further in other studies and such research is ongoing.”

1 in 9 Kids Diagnosed With ADHD.

According to a new study by the CDC, an increase of about 1 million children since 2016 have been diagnosed with ADHD. The study, published this month in the *Journal of Clinical Child & Adolescent Psychology*, showed 11.4% of children ages 3-17 years (7.1 million) as having at some point been diagnosed with the condition, and 10.5% (6.5 million) are currently living with ADHD. The study comes as Sweden recently reported an explosion of ADHD cases in 2022, with 10.5% of boys and 6% of girls diagnosed with the condition. Responding to the study findings, Dr. Paul Thomas, author of “*The Vaccine-Friendly Plan*”, told The Defender that his vaxed-unvaxed study showed “zero ADHD in the unvaccinated compared to “significant ADHD in the variably vaccinated.” Thomas said genetic vulnerability relates more to an increased susceptibility to toxins like the weedkiller glyphosate and aluminum in vaccines. Neil Miller in 2021 found fully-vaccinated children were 20.8 times more likely to be diagnosed with ADD/ADHD compared with their unvacci-
