## 'You Will Be Like God': The False Gospel Of Transhumanism.

The race to merge man with machine is no longer confined to the pages of science fiction. It's unfolding right now in bio-tech labs, boardrooms, and elite tech circles with a conviction that borders on religious zeal.

The new gospel is clear: humanity is broken, death is the enemy, and salvation will come through silicon, not Scripture. In this gospel, you don't repent. You upgrade. You don't wait for resurrection. You upload. You don't follow God. You become him.

In a recent conversation on *Interesting Times*, tech billionaire, Peter Thiel, voiced what many in Silicon Valley now believe: humanity must radically transform if it hopes to survive. "We want more transformation than transhumanism," Thiel declared. "We want you to be able to change your heart and change your mind and change your whole body."

He even compared this vision to Christianity's promise of resurrection, noting that the difference lies in who initiates the transformation. In Thiel's version, we do. In the Christian Gospel, God does. That difference is everything.

## Sharia Rising: Islam's Quiet Takeover of London and New York.

The Islamization of our major cities is happening aggressively, publicly, and without apology. From taxpayer-funded Sharia positions in the UK to chants of "Globalize the Intifada" on the streets of New York. The message is clear: many Muslims are not merely seeking to assimilate, they're seeking to dominate.

## Why Has the Birth Rate in the US Fallen to the Lowest Level Ever Recorded.

The CDC just announced that the birth rate in the US fell below 1.6 children per woman in 2024, the lowest level ever recorded. In order for the population of our nation to remain stable, women need to give birth to an average of 2.1 children because not all children make it to adulthood. We are literally not even replacing ourselves, and that has all sorts of implications for our future. If we don't produce enough offspring,

there simply will not be enough workers to support Social Security and Medicare and those programs will inevitably collapse. A society with lots of old people and relatively few young people will result in poverty for everyone. So the truth is that the birth rate crisis is going to affect all of us. Our society is not growing, it is dying.

## Falling In Love With AI? The Alarming New Trend Replacing Real Relationships.

In a world teetering on the edge of emotional isolation, where face-to-face interaction is rapidly giving way to screen time, a new trend is quietly overtaking the way people seek love and belonging: AI companions. They are always available. They never argue. They remember everything you like. But they are not human, and therein lies the danger. Recent research paints a grim portrait of our modern emotional landscape. Loneliness has reached epidemic levels. The US Surgeon General has declared it a public health crisis, linking social isolation to

increased risk of heart disease, dementia, and even premature death. Over 60% of young adults report feeling "serious loneliness." In this climate of disconnection, the allure of digital companionship is growing stronger and more troubling by the day. (pnw.com 7/26)

## American Academy of Pediatrics Wants to Shut Down Religious Vaccine Exemptions.

The AAP today called for an end to religious and philosophical vaccine exemptions for children attending daycare and school in the US. Critics said maintaining exemptions is essential in preserving parental choice, medical ethics, and informed consent. (chd.org 7/28)

## The Earth Trembles Before Redemption: A Global Awakening Beneath Our Feet.

From the depths of New Jersey to the coasts of Kamchatka, the Earth has been rumbling with unusual intensity in recent weeks. Seismic activity across multiple continents has scientists, emergency agencies, and residents on high alert, as earthquakes and volcanic eruptions rock previously quiet zones and reignite long-dormant giants. Late Saturday night, a magnitude 3.0 earthquake jolted residents in Hasbrouck Heights, New Jersey, with tremors felt as far as Upper Manhattan, Riverdale, Staten Island, and parts of the Bronx. The quake follows a series of six microearthquakes that rattled Morris County, NJ. A magnitude 4.8 quake in April, centered near Lebanon,

NJ, sent stronger shockwaves through NY city, serving as a wake-up call for the region. On the other side of the globe, the fifth most powerful quake in recorded history struck Russia's Kamchatka Peninsula last Wednesday. The magnitude 8.8 earthquake generated small tsunami waves in Japan and Alaska and triggered warnings throughout the Pacific, from Hawaii to New Zealand. (israel365news.com 8/5)

# Jesus' Coming Is Near, Even At The Door (Matt 24:33)

This past week-end, on the solemn day of Tisha B'Av, the 9th of Av, history was made atop the Temple Mount in Jerusalem. For the first

time in modern memory, a sitting Jewish minister not only visited Judaism's holiest site, but openly prayed, prostrated, and led thousands in song and worship. Despite government officials insisting that "nothing has changed," what took place on Sunday declared quite the opposite: everything has changed. For thousands of years, the 9th of Av has been the darkest day on the Jewish calendar commemorating the destruction of both Temples

and centuries of exile. On this Tisha B'Av, the site where Jews have been forbidden to worship for generations echoed with songs of praise. Worshippers prostrated. Jewish feet walked freely where once only whispers and silent prayers dared tread. For decades, Jewish presence on the Temple Mount has been strictly limited, small numbers could visit but not pray. Jewish visits have soared from fewer than 20,000 visits in 2020 to over 56,000 so far in the current Hebrew year, despite opposition from both religious and political establishments. The Temple Mount Institute is holding training for Levite priests, rehearsing burnt offerings, and preparing for their Annual Conference which will address recent temple updates. For centuries, Jews ended their Passover Seders and Yom Kippur fasts with the cry, "Next year in Jerusa-

lem." But many are now revising that prayer to say, "Next year on the Temple Mount. Next year, the Third Temple." For Jews, the Temple's rebuilding is a return to covenant, the revival of ancient worship, and the final step in national restoration. For many Christians, it signals something else: nearing of the end of the age. Daniel, Ezekiel, Zechariah, and Revelation all speak of a last-days rebuilt Temple. What once seemed impossible, Jewish worship on the Temple Mount, is now reality. What was once a dream, the return of the Temple, feels nearer than ever. The question is not if something has changed. It is whether we are ready for what comes next. Let the nations take notice. The Temple Mount is stirring. The Rapture draws near! (prophecynewswatch.com 8/4)

"The data show these vaccines fail to protect effectively against upper respiratory infections like COVID and flu." US Health Secretary R.F. Kennedy Jr. said Tuesday. **-Funded Bird Flu Shot.** Self-replicating mRNA, Bill Gates, gain-of-function, it's all happening again. In this explosive report, I

break down what HHS's cancellation of 22 mRNA vaccine projects really means, and expose the hidden plan most influencers are missing. HHS admits mRNA shots fail to protect against COVID and flu. But BARDA (the US Biomedical Advanced Research and Development Authority) is allowing Arcturus Therapeutics' bird-flu shot to continue, despite using self-replicating mRNA, backed by Bill Gates, approved by BARDA in November 2024, and fast-tracked by FDA to Arcturus in April 2025. BARDA admits mRNA tech increases viral mutation and may prolong pandemics, yet still backs a bird-flu mRNA shot which is the only vaccine being allowed to continue by

HHS. Gates has publicly said vaccines can be used to reduce global population by 10-15%. The stage is set for the next manmade pandemic and the virus of choice is bird flu. I connect the dots between gain-of-function research, government vaccine contracts, population control, and the strategic pivot from COVID to H5N1. (jonfleetwood.com 8/6)

**Global Depopulation During**  
**Tribulation.** "And I looked, and

*behold a pale horse; and his name that sat on him was Death, and Hell followed with him. And power was given unto them over the fourth part of the earth, to kill with sword, and with hunger, and with death, and with the beasts of the earth."* (Rev. 6:8 - 1st half of Trib)

Based on 8.2 billion people (2025), 2,050,000,000 people will die. "And the four angels were loosed, which were prepared for an hour, and a day, and a month, and a year, for to slay the third part of men." (Rev. 9:15 -2nd half of Trib) A third of the remaining population of 6.15 billion is again 2,050,000,000, killed creating a 50% depopulation of the earth.

**Crowds or Armed Gunmen.** Anyone who supports getting more food to people in Gaza, as I do, must also ask tough questions of the UN. The UN itself reports that 87% of its 2,010 food trucks in Gaza (85% by tonnage) from May 19 – July 29 were "intercepted" either peacefully by hungry people or forcefully by armed gunmen, during transit in Gaza. The IDF is not seizing the aid. Those armed gun-

men are Hamas. Since early 2024, the UN2720 Mechanism has been verifying humanitarian consignments to Gaza. Monitors track approved aid requests using individual QR codes and verify the type, quantity, and condition of aid at key crossing points. Any discrepancies from planned shipments are recorded in the UN2720 database. This process enhances traceability, facilitates the delivery of aid to its intended destination, and contributes to building trust and efficiency in humanitarian operations. (jihadwatch.com 8/2)

A thousand dollar credit card balance can turn into four or five thousand dollars in the blink of an eye, and once you get that deep into the hole it can be very difficult to ever dig yourself out. Today, that is happening to an alarming number of Americans. (prophecynewswatch.com 7/31)
