## Scriptural Truth Will Not Change

**Mike Huckabee: Grounding Middle East Diplomacy in the Truth of God's Word.** Huckabee views Israel not through a political lens but a biblical one. His framework is anchored in God's covenantal promise to Abraham: "To your descendants I have given this land" (Gen. 15:18). "This land" includes even the contested area the world calls the West Bank, a term Huckabee rejects in favor of the biblical names, Judea and Samaria. (harbingersdaily.com 2/28)

**Moral Sickness and Depravity is a Problem That No President, Legislature, or Law Can Solve.** There is one area that no president has control over, one that concerns me as a Christian more than any other political, legal or territorial matter. That's the ever-growing moral decadence that seems to have gripped so much of our nation, especially among young people. Recalling a tragic incident from just a few months ago when the CEO of United Healthcare was gunned down on a New York sidewalk as he was leaving his hotel and headed to an early morning meeting. The assailant shot Brian

Thompson from behind, and then walked up to him as he lay bleeding on the sidewalk and drilled two more shots from his silenced sidearm. Thankfully, law enforcement officials arrested Luigi Mangioni. It was nothing less than cold-blooded murder by an Ivy League graduate who has expressed no remorse for his cowardly assassination. But what has shocked many is the large number of people who believe that this killer actually did nothing wrong by resorting to murder to express his grievances toward the health care industry. Israel had long abandoned its allegiance to God and replaced it with idolatry, meaningless rituals and sacrifices that incurred God's wrath, not His blessings. The Prophet Isaiah said to Israel, "Woe unto them that call evil good, and good evil; that put darkness for light, and light for darkness; that put bitter for sweet, and sweet for bitter!" (Isaiah 5:20). That is exactly what we are seeing right now in our sin-rotten culture. Many have forsaken God, have ignored and forgotten God. Without a biblically informed conscience and a commitment to the authority of Scripture, truth is turned

on its head, leading to actions that are devoid of absolute right and wrong. Isaiah put it this way: "...for truth is fallen in the street" (Isaiah 59:14). If this kind of moral corruption continues to spread, can you imagine the consequences? (harbingersdaily.com 2/28)

**Since Christianity is the Only Way to be Saved, Why Aren't More People Christians? And Why is it Under Attack?** The antipathy of the world towards Christianity should not surprise us, nor should its lack of interest towards the things of God. Jesus Himself said "Because strait is the gate, and narrow is the way, which leadeth unto life, and few there be that find it" (Matthew 7:14). John 16:1-3 speaks to the strong opposition that will come to His followers. Living in this era of pandemics, economic chaos, natural disasters, and political strife, you may feel tempted to question whether God is in control. Yet when you look to the Bible, you'll find these events actually signal that His promises will soon be fulfilled. (thekingiscoming.com 2/28)

## The March Toward Mandatory Digital Identity is Closer Than You Think!

In an era where our digital footprints increasingly define our identities, the concept of mandatory digital identification is rapidly gaining traction. Legislative efforts aimed at regulating minors' access to social media, are accelerating this shift. It was proposed in January 2025 at the WEF in Davos that social media accounts within the European Union be linked to the EU Digital Identity Wallet. This initiative aims to eliminate online anonymity to combat misinformation and enhance security. It also raises concerns about user privacy and the potential for increased surveillance. Australia has enacted social media regulations, banning children under 16 from platforms like Facebook, TikTok, and Snapchat. Social media companies are required to enforce these age restrictions or face substantial fines. The legislation aims to protect young users, but experts warn it could lead to privacy issues and push children toward less regulated platforms. In the U.S., twelve states have implemented regulations requiring parental consent and age verification for teen social media use which contribute to the normalization of digital ID systems, potentially paving the way for broader applications. The expansion of digital ID beyond social media is a looming possibility. Linking digital identities to various essential online services could lead to eroding online anonymity where every action is traceable and personal freedoms are compromised. I have never seen anything quite like this, and am convinced that seismic activity will only increase during the months ahead. (pnw.com 2/26)

## Within America

### USAID Sent Over \$2,000,000,000 to Hamas AFTER October 7 Jihad Massacre.

This is both maddening and heartbreaking. According to this sworn testimony, over \$2 billion in US taxpayer funding was sent by USAID to Hamas since October 7, 2023. The USAID Director (who was the US Ambassador to the UN under Obama who caused the Security Council to pass a viciously anti-Israel resolution in the waning days of the Obama Administration), according to this witness, caused the transfer of funds to aid Hamas in fighting Israel. ### Infiltration, Not Integration: How Radical Islam Plans to Dominate America.

The battle for America's future is no longer being fought in distant lands--it is happening

right here within our borders, in our schools, our courts, our media, and our government. Nihad Awad, the radical leader of the Council on American-Islamic Relations (CAIR), has openly declared documented facts, these groups continue to operate in America under the guise of advocacy, while systematically working to undermine our laws and traditions.

### Florida Bill Could Ban Vaccines in Food: HB 525 Would Classify Vaccine-Laced Foods as Drugs, Mandate Labeling.

For years, researchers have been exploring the potential of turning edible plants like lettuce and spinach into mRNA vaccine production systems. The new bill, introduced by Florida Rep. Monique Miller, aims to classify vaccine-

containing food as a drug, requiring it to be regulated accordingly. It has now advanced to the Health Professions & Programs Subcommittee. "It is vital that the citizens of Florida know and understand what is in their food," Rep. Miller stated in an official filing. We are seeing an uptick in vaccine materials integrated into food. That food must be subject to the same regulation as a vaccine. To do otherwise undermines medical freedom, and the basic decency of consumer transparency. This legislation will classify food with vaccines injected into it as drugs which will strengthen regulatory oversight and ensure informed consent on the part of the consumers. The Senate is considering an Amendment to make this an outright ban on vac-

How is Turkey Helping Iran Finance and Rehabilitate Hezbollah? Since the victorious blow that the IDF struck against the Shiite terrorist organization, Iran has been wasting no time in trying to transfer hundreds of millions of dollars in cash to Hezbollah. The smuggling route was on planes from the Iranian Mahan Air, flying from Iran to the Beirut airport. Israeli intelligence located this route and threatened Lebanon that its main airport would be bombed so Lebanon banned the landing of Iranian planes. But Shiite Iran has found a surprising ally: Sunni Erdogan, who has placed the airport in Istanbul at its disposal. Now, the crates of dollars are landing in Turkey, and from there they are flown via alternative routes to Lebanon. Iran is trying to operate smuggling routes through additional countries, some of which Israel is managing to thwart through intelligence activity and inten-

sive diplomatic activity by Foreign Minister Sa'ar and Foreign Ministry officials. Estimates are that tens of millions of dollars have already reached Hezbollah through the Turkish route. A political source told us: "Turkey sees itself as the leader of the Sunni world, and as such it is playing a 'game of greats' against Shiite Iran. The fact that their proxies have been fighting among themselves does not prevent cooperation between Tehran and Istanbul, and the advancement of what is perceived in both countries as the goal of the entire Islamic world." ### Turkey Severs All Relations With Israel.

"The government of the Republic of Turkey, under the leadership of Tayyip Erdogan, will not continue or develop relations with Israel," Erdogan said. "Our ruling coalition is resolute in its decision to cut ties with Israel, and we will maintain this stance in the future as well. We, as the Republic of Turkey and its government, have currently severed all relations with Israel." (thekingcoming.com 2/21)

### South Africa Considers Nuclear Coop-

eration with Iran and Russia. South Africa is increasingly defining itself internationally as a rogue state, so it isn't surprising that it would align itself with Iran and attempt to partner with Iran and Russia as a necessity. Samson Mantashe, South Africa's minister of mineral resources and energy and a strong advocate for nuclear power expansion, stated, "We cannot have a contract that excludes Iran or Russia from bidding. We cannot impose such conditions." But South Africa once had a nuclear energy agreement with the US. It has now shifted its focus to Iran and Russia.

### Prophetic Turning Point? Trump-Zelensky Clash Ignites Calls For EU Army.

The abrupt fallout between President Trump and President Zelensky has sparked renewed calls for Europe to establish its own army, one independent of the US. Could this be the fulfillment of a prophetic moment leading toward the rise of a European superstate and pave the way for the prophesied leader who will unite Europe under a single banner?
