Never Fear, Get on Board

The saints used to sing *The Old Ship of Zion* (representing the church). Remember when Jesus was in a ship with His disciples during a horrific storm. Their fear drove them to awake Jesus who was resting. "Why are ye fearful, O ye of little faith?" (Matt 8:26). Our ticket to board the Old Ship of Zion is the new birth experience He described in John 3:5, "born of water and of the Spirit", with the method of that spiritual birth given in Acts 2:38, repentance, water baptism in Jesus' name, and receiving the Holy Spirit evidenced by speaking in other tongues. Our Captain is Jesus. it is His ship, a massive ship accommodating many. He has placed us under the care of His chosen pastors who guide us in His word. Very soon The Old Ship of Zion will make it safely to shore (the rapture). Just stay on board and expel the distractions presented by the enemy of our souls. Stay on board brother, stay on board.

…...

I was standing on the banks of the river,
Looking out over life's troubled sea.
When I saw that ole ship that was sailing,
Is that the ole ship of Zion I see?

…...

At the stern of the ship stood the Captain.
I could hear as He called out my name.
Get on board, it's the ole ship of Zion
It will never pass this way again

…...

As I step on board I'll be leaving
All my sorrows and heartaches behind.
I'll be safe with Jesus, the Captain
Sailing out on the ole ship of Zion.

God is Using Israel as a Timing Clock for the Rapture

Once the church is caught away, God's attention will return to His chosen nation of Israel for judgment and redemption. Prophetic events concerning Israel are like road signs, showing how very close the Rapture of His church really is!

Israel Forgot God. Then Came the Yom Kippur War and October 7. Israel's modern history contains a striking pattern: periods of confidence and secularization have been interrupted by national crises that forced Israelis to confront deeper questions of identity, survival and faith. From the shock of the Yom Kippur War to the trauma of October 7, could catastrophe once again be stirring a spiritual awakening in the Jewish state? (pnw.com 9/24)

Population Milestone. Israel's population has reached an estimated 10.3 million people including Israel's Jewish, Arab, and foreign national populations, according to the Central Bureau of Statistics, reflecting continued population growth across the nation. (newsmax.com 9/22)

A remanent of one-third of Israel will be left by the end of Tribulation, those who recognize Jesus as their Messiah. (Zechariah 13:8-9)

Majority of Israelis Fear October 7-Style Attack From Judea and Samaria. Seventy-seven percent of Israelis now fear a large-scale October 7-style attack could originate from Judea and Samaria, according to new polling. The concern has risen sharply as Israel's defense establishment warns that the threat is not theoretical and prepares for the possibility that Palestinian Authority-linked forces could turn their weapons on Israelis. (prophecynewswatch.com 9/18)

"Then let them which be in Judaea flee to the mountains:" (Matthew 24:16) Prophecy of mid-Tribulation.

Israel Refuses to Commit Suicide With the 'Two-State Solution'. "The two-state solution is dead – and Israel won't commit national suicide to please Britain," by Andrew Fox, (The Jewish Chronicle, 9/15). Britain's latest sanctions are intended to bring an Israeli two-state solution closer, yet the British government possesses neither the leverage to impose one nor the means to guarantee Israel's security afterwards. Israel will not commit national suicide. Its claim to Judea and Samaria is based on 3,500 years of history connecting the Jewish people to those territories, a connection that the League of Nations recognized when it created the Mandate for Palestine in 1921. But there is another, independent reason why Israel must hold onto Judea and Samaria: without them, Israel has no strategic depth. A Palestinian state in those areas would leave Israel with a nine-mile-wide waist from Qalqilya to the sea, so that an invader from the east could cut Israel in two within a few hours before Israel's reservists could be called up. Judea and Samaria are also on much higher ground than the coastal plain where two-thirds of Israelis live; the Palestinians would loom over a much diminished Israel; Ben-Gurion Airport itself would be under the guns of "Palestine." Israelis are being asked to commit national suicide. The Arabs have 22 sovereign states. They want a 23rd Arab state, by reducing the one Jewish state back within the 1949 armistice lines, so that its defense against an aggressor would be hopelessly undermined. (jihadwatch.com 9/19).

During the first half of Tribulation Israel will be permitted to build their temple on Temple Mount. Mid-Tribulation the antichrist will discontinue Jewish sacrifices and set up his seat in the Jewish temple, claiming to be god and requiring all men to worship him.

The Sounds of the Temple Are Returning to Jerusalem. For nearly 2,000 years, the sounds of ancient temple worship belonged to history. Now shofars and silver trumpets have sounded together on the Temple Mount as preparations connected to a future Temple continue advancing. Something remarkable is stirring in Jerusalem. Necular Threats From The Ocean

Hidden Beneath the Waves: The New Nuclear Threat From Russia and China. While much of the world is watching drones transform the battlefields of Ukraine and the Middle East, another military revolution is taking place largely out of sight, beneath the oceans. Russia and China are rapidly developing underwater nuclear capabilities designed around one of the most important principles of nuclear warfare: survival. Missiles sitting in fixed silos can be targeted. Air bases can be monitored by satellites. But a nuclear submarine that disappears beneath millions of square miles of ocean presents a completely different problem. And both Moscow and Beijing are investing heavily in making that problem much more difficult for the United States. Russia's newest contribution is particularly ominous. The nuclear-powered submarine Khabarovsk reportedly began sea trials in Russia's White Sea in August. Launched in November 2025, the vessel is the first of a new class specifically designed to carry Russia's Poseidon nuclear-powered underwater weapon. Reports indicate that Khabarovsk could eventually carry as many as six Poseidon weapons. (prophecynewswatch.com 9/3)
