## End Time Events Around The Globe.

*"But the end of all things is at hand: be ye therefore sober, and watch unto prayer." 1 Peter 4:7*

**Greece Has Completely Shut Down Its Borders Friday**, sending dozens of naval vessels to patrol the Greek islands after Turkey announced it would allow all Syrian migrants to head to Europe. (jihadwatch.com 3/2)

**Erdogan: "The Number of Refugees Heading Toward Europe Will Soon be in the Millions"**. Erdogan said in Ankara Monday "I told them it's done. It's finished. The doors are now open. Now, you will have to take your share of the burden. "Since we have opened the borders, the number of refugees heading toward Europe has reached hundreds of thousands. This number will soon be in the millions," he said. (jihadwatch.com 3/4)

**Greek Army Conducts Live Ammunition Drills on Turkish Border as Muslim Migrants Swarm Into Greece.** (jihadwatch.com 3/6)

**Erdogan: Turkish Military Offensive is Religious War.** Erdogan framed Turkish military cross-border offensive as a religious war, reciting a poem that describes the Turkish army as the last army of Islam that dies for Allah. Likewise, Erdogan encourages a total Muslim takeover of the State of Israel which would include the destruction of the Jewish nation. Whoever is on the side of Israel we are against them. That would include God since Psalm 135:4 states "For the Lord has chosen Jacob for Himself, Israel for His special treasure." (jihadwatch.com 3/9)

### **China Faces Financial Armageddon Countdown - World Economy At Risk.**

According to the Nikkei, over 85% of small businesses, which employ 80% of China's population, expect to run out of cash within three months, and a third expect the cash to be all gone within a month. Should this happen, not only will China's economy collapse, but China's \$40 trillion financial system will disintegrate, as it is suddenly flooded with trillions in bad loans.

(prophecynews.com 2/26) If not this crisis, something will bring the world into a global economy for the reign of antichrist.

**Palestinians and the ICC.** The ICC is investigating Israel's conduct during the war it fought against Hamas in 2014, its response to violent protests in 2018-2019, and its building of Jewish communities in the disputed West Bank. The Palestinians say they are merely pursuing justice, but it is increasingly clear the Palestinians are using the International Criminal Court as a weapon. (endtime.com 2/28)

**Europe and the Middle East.** Many who watch world events know that the heart of the Arab-Israeli debacle is Jerusalem! For decades, the US has taken the lead in promoting peace efforts between Israel and the Palestinians. Yet, President Trump's new peace plan seemed to fall out of favor even before it was released, in part because PA leaders no longer trust the US. The Europeans want a chance to bring peace to the Middle East. Last week, the foreign policy chief of the EU met with the foreign minister of the PA and signaled that they were ready to work with all involved to revive the peace process 'in line

with international law which ensures equal rights and which is acceptable to both parties" (Jerusalem Post, 2/23/20). EU leaders continue to push for a "two-state solution" and a meeting with the Middle East Quartet (the UN, the US, the EU, and Russia), where the US could be out-voted and the EU could easily take the lead. The Pope stated that the Vatican cannot "overlook" the Israeli-Palestinian issue any longer, implying future involvement by his office in actively seeking a solution. Bible prophecy records that, prior to Christ's return, a European "beast" power or "king of the north" will take military control of Jerusalem (Daniel 11:40-43; Luke 21:20). In fact, a group of nations that includes Europe and the Arab world could combine their efforts and bring a temporary peace to the Holy Land before Europe's military push into Jerusalem. Events are developing in the Middle East that could set the stage for the powerful fulfillment of end time prophecies. (twnews&prophecy.com 2/28)

**The Undemocratic Alliance Bent on Toppling Netanyahu.** The parliamentarians who refuse to join the right-wing bloc are united by a singular goal: to dethrone Netanyahu. Yet these 62 opposing members of Parliament are incapable of forming their own governing coalition. In addition to their unwillingness to sit with Netanyahu, they have all repeatedly stated that they are ideologically opposed to sitting with one another. (timesofisrael 3/6) In the March election, the third in a year, none of the candidates received the necessary 62 parliamentary seats and one will have to form a coalition government.

*Look up! Your Redemption Is Near.*

**Supremes to Decide if Faith Can Be Violated.** The U.S. Supreme Court has agreed to take up a case that revolves around the issue of whether LGBT activists can demand that government force Christian organizations to violate their faith. The

issue is the decision by officials in Philadelphia to demand that Christian organizations violate their millennia-old standards for their faith by placing foster children with LGBT duos. (endtime.com 2/28)

**Syria, Turkey, and Russia, When What's to Come is Still Unsure.** It was not even two months ago, at the beginning of January, that Turkish Prime Minister Erdogan

and Russian President Putin seemed to be best friends forever. But this is now. At the very end of February, Turkey was threatening to destroy the advancing Syrian army in Idlib, and also wanted to make sure that Russia would keep out of any direct involvement on the Syrian side. Turkey is demanding that NATO back it up in any clash with Russia. (jihadwatch.com 3/2)

# End Time Events In America

## Schools Helping Students to Gender Transition Without Parental Knowledge.

Imagine dropping your son off at school, never knowing that he lives a completely different existence as a girl for eight hours a day, and everyone knows it but you. That's the reality in Madison, Wisconsin, where moms and dads have been furious to find out that not only is the district keeping their children's gender expression a secret, but there's an elaborate scheme in place to keep parents from ever finding out! ## Homosexual Pedophilia Destroyed the Boy Scouts.

Homosexuals comprise just 2% of the population, yet are responsible for 33% of all instances of child sexual abuse. The BSA has filed for Chapter 11 bankruptcy in an effort to stave off an avalanche of lawsuits filed by victims of sexual abuse at the hands of homosexual scoutmasters. The lawsuit may require the organization to divest itself of much of its extremely valuable property. By the time the plaintiffs are done, the BSA will be an empty shell of its former self. ## Media Uses Coronavirus To Mock Christian Faith.

The Left seems to love creating hysteria and mocking Bible-believing Christians so they couldn't have asked for a better gift than the coronavirus. Not only does it give the media a chance to fuel the fear and fill headlines, but also gives them a chance to take another whack at Vice President

Pence when a picture circulated of him praying with his coronavirus emergency team. Extremists saw the opening and went ballistic at the idea that the man in charge of America's task force would "waste time" praying. "We are so screwed," Thomas Chatterton Williams posted. CNN's Don Lemon's accusation of prayer instead of science was not only ignorant, but insulting. Throughout the ages, Christians have been behind the discovery of some of the world's most important vaccines and treatments and the entire hospital network in this country. ## Schools Are Pushing the Boundaries of Surveillance Technologies.

A school district in New York, as well as a growing number of schools across the country, recently adopted facial recognition technology to monitor students, conducting mass privacy violations of kids in the name of "safety." Often this invasive use of surveillance is without oversight or recourse for concerned students or their parents. Not only that, but schools are experimenting with the very same surveillance technologies that totalitarian governments use to surveil and abuse the rights of their citizens everywhere: online, offline, and on their phones as if our students were dissidents under an authoritarian regime. ## Dangerous Drinking Water Across the U.S.

The *Guardian* reported on a study of tap water at 44 sites in 31 states and DC, and found

dangerous levels of PFAS (January 22, 2020). These substances are referred to as "forever chemicals" because they do not break down in the environment. God created the soil and rock to be fantastic filtration systems, designed to filter out naturally occurring microorganisms and other substances. However, man-made chemicals such as PFAS are often not naturally occurring substances. According to the report, PFAS come from products such as Teflon and Scotchguard, as well as firefighting foam, and some have been linked to "cancers, liver damage, and other health problems." This new research suggests that a 2018 estimate of the number of people contaminated by PFAS, 110 million, was probably far too low. (twnews&prophecy.com 2/21)

## Defense Dept Linguist Accused of Passing Classified Info About DoD Computer Systems and US Intel Assets to Hizballah.

Linguist Mariam Thompson, 61, who had top-secret government clearance working for the Department of Defense was arrested last week on charges of giving top-secret information, including details on American intelligence assets, to a Lebanese national with ties to Hezbollah, a group designated by the U.S. State Department as a terrorist organization. **#1 Armies Of Locusts** devouring entire farms in Africa in as little as 30 seconds and have spread the Middle East even as far as China. **#2 Extremely Bizarre Weather Patterns.** Absolutely crazy storms are happening all over the planet, setting many records. **#3 Unprecedented Flooding.** We are seeing unusual flooding all over the world right now, **#4 Major Earthquakes.** Really big earthquakes are happening with such frequency now that it is very difficult to write about them all. **#5 Unusual Volcanic Eruptions.** Seismic activity has been rising all over the globe, and over the past couple of

## 10 Plagues That Are Hitting Our Planet Simultaneously

months we have seen volcanoes all over the world pop off like firecrackers. **#6 The Coronavirus.** Needless to say, the coronavirus outbreak has been getting more headlines than anything else on this list. **#7 The African Swine Fever.** "Pig Ebola" has already wiped out millions upon millions of pigs in China, and it has now spread to more than 40 other countries. **#8 The H1N1 Swine Flu.** The CDC calculates that up to 575,000 people may have died from H1N1 in 2009 which strikes mainly people under 65 years of age. The WHO estimates that the seasonal flu kills up to 500,000 people each year. (abcnews.com) As of now, the H1N1 virus is posing a great threat once again as it has claimed 13 lives in Taiwan in the last week. This virus is highly contagious and spreads from human to human. It is especially

dangerous for those with a compromised immune system. **#9 The H5N1 Bird Flu.** This strain of the bird flu caused a massive global scare a number of years ago, and now it is experiencing a stunning resurgence. China has had to kill thousands of chickens so far, and experts are warning that this outbreak could be just getting started. **#10 The H5N8 Bird Flu.** This strain is different from the H5N1 bird flu, but many believe that it is even more frightening. It has started to pop up in numerous places around the globe, and experts were really surprised when it recently made an appearance in Germany.

2020 has certainly started off with quite a bang, and many expect global events to continue to accelerate. (prophecynewswatch.com 2/20)
