## It's Almost Time for Jesus to Come!

**Convergence!** How often have you heard various terms recently: Convergence; it's all coming together; last days' countdown; running out of time. That's because we've entered the predicted season where *all things are falling into place.*

(olivetreeviews.org 4/1 by Jan Markell)

**God is Not Confused.** Since the start of the two-week cease fire between Iran and the US, news anchors and commentators appear confused. They hear what they want to hear and voice many opinions without facts. But we can be sure, our God is not confused. Whatever prophecies are written in the Bible will come to pass without exception. God is likened to a global puppeteer, directing the decisions of the nations, ruling over the kingdoms of men, giving them to whomsoever he will. (Daniel 4:17, 4:32, 5:21). All nations

will turn against Israel. The battle will be fierce killing two-thirds of Israel, but God will bring one-third through the fire and refine them. (Zechariah 13:8). Right now God is aligning the nations and circumstances to bring the enemies of Israel to the valley of Jehoshaphat (Kidron valley) (Joel 3:2) and Armageddon (Jezreel valley) (Rev. 16:16) for destruction prior to setting up the earthly millennial kingdom of JESUS, King of Kings and Lord of Lords. While the earth is under the domination of Antichrist with intense terror and destruction, the church will be rejoicing in heaven and will return with JESUS to end the final battle and the Tribulation. Fear not, we are on the winning side. (v.julien)

**How Our Cars Are Becoming 24/7 Surveillance Machines.** Our cars will soon be no longer just a machine, but a

data-collecting, behavior-monitoring, algorithm-driven observer equipped with inward-facing cameras, biometric sensors, capable of tracking eye movement, facial expressions, and even subtle behavioral patterns. These systems can determine if you're distracted, tired, or impaired, and it may prevent operation if impairment is detected. The *Infrastructure Investment and Jobs Act* reveals a growing push to embed this advanced driver-monitoring. The question Americans must now face is not whether technology can make driving safer, it can. The question is whether we are willing to trade our independence, our data, and our control, for that promise. Once your car is watching you, tracking you, and deciding for you, are you still the one in the driver's seat? (prophecynewswatch 3/24)

## Messiah

Alfred Edersheim, a Jewish Messianic Christian known for his extensive writings of Jewish history and life during the times of Christ, found 456 Old Testament verses referring to the Messiah or His times. Conservatively, Jesus fulfilled at least 300 prophecies in His earthly ministry. Twenty-seven prophecies about the Messiah were fulfilled in one day. Professor Peter W. Stoner (1888-1980) was Chairman of the Departments of Mathematics and Astronomy at Pasadena City College for several decades during the mid 20th century. He stated "Out of the hundreds of prophecies, the statistical possibility of one person randomly fulfilling just eight of those prophecies.

- 1) He would be born in Bethlehem. Micah 5:2.
  - 2) He would be born of a virgin. Isaiah 7:14.
  - 3) He would be a descendant of David. Isaiah 9:7.
  - 4) He would be betrayed for 30 pieces of silver. Zechariah 11:12.
  - 5) He would be mocked. Psalm 22:7, 8.
  - 6) He would be crucified. John 3:14.
  - 7) He would be pierced. Psalms 22:16.
  - 8) He would die with the wicked yet be buried with the rich. Isaiah 53:9.
- That one person could fulfill these eight prophecies by random chance is considered a statistical impossibility, a one chance in 100 quadrillion. (americanminute.com 4/3)

## Should "They" Control Your Health Decisions

**Argentina Officially Exits 'Nefarious' World Health Organization.** (jonfleetwood.com 3/23)

**New Bill HR7879 Puts US State Department** in charge of organizing foreign governments for global vaccine and drug response for the next pandemic before it has even occurred. (jonfleetwood.com 3/12)

**Tennessee Bill SB1767** to take effect in January 2027, "An individual, including a healthcare provider, shall not administer to any human or animal in this state a vaccine or other injectable solution that contains an mRNA vaccine or vaccine mate-

rial." HB1852 is the house companion bill making it a class A misdemeanor punishable by a fine of up to \$2,500 per violation. SB1949 was also introduced and would classify mRNA injections as weapons of mass destruction, making their possession or distribution a Class B felony. (theepochtimes.com, google)

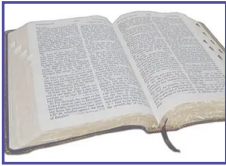

**West Virginia Bill Forces Vaccine History Into Every Sudden Death Under 30: HB4951.** State builds pipeline linking vaccines to Sudden Death Syndrome data: federal CDC registry is to receive every case. (jonfleetwood.com 4/2)

**Maryland Bill HB1135** has

Already cleared the House and is racing through the Senate would grant pharmacists authority to order certain vaccines for specific individuals with the requirement to immediately log the named "intended recipient" into the state's permanent immunization database—even though the text does not expressly require the person to request the shot, consent, or even be notified. HB 1135 expands pharmacist authority while creating a new pre-administration tracking pipeline, all without the authority of the patient. (jonfleetwood.com 4/3)

## Echoes Of Ezra: 'America Reads The Bible' To Rededicate Our Nation To God.

Of the many activities planned in conjunction with America's 250th birthday, none can be as powerful, as impactful, as rich as what is set to take place April 18-25 along the National Mall in Washington, D.C. Over 480 national leaders from politics, entertainment, ministry, and industry will be gathering at the Museum of the Bible for "America Reads the Bible," a complete reading of Scripture from Genesis to Revelation. Creator and organizer Bunni Pounds, who worked as a political consultant for years before founding the nonpartisan political activism organization *Christians Engaged*, was touring the museum when struck with inspiration for "America Reads the Bible." Pounds partnered with *Great American Pure Flix* to stream and broadcast "America Reads the Bible" to the nation and thousands of churches. However, she really wants people to attend in person. The reading will take place 9 am to 9 pm each day with tickets available in three-hour blocks. "When we proclaim the word of God, the Bible says that faith comes by hearing and hearing by the word, faith actually rises in people's hearts. And so, when we're proclaiming the word of God, and it's being livestreamed to the nation by our national leaders, from all these spheres of influence, there's actually something spiritually that happens in the atmosphere. But it also awakens people, there is wisdom that is outside of what they see in their own life right now." Her ultimate goal? Propelling the nation forward into an even brighter future. (prophecynewswatch 3/24)

## Will We Stand When It Demands A Price?

### The NBA Reminds Christians That Taking a Stand Will Cost You Something.

The Chicago Bulls did not waive Jaden Ivey because he committed a crime. He was not accused of violence. He was not cut for some drunken scandal, sexual misconduct, or disgraceful off-court action. He was waived after publicly speaking about his Christian faith and criticizing the NBA's Pride activism. And that should send a chill through every believer in America. What happened to Ivey is not about basketball. It is about the growing cost of speaking biblical truth in

a culture that claims to celebrate diversity which does not include Christians who still believe the Bible means what it says. The second a believer moves beyond generic spirituality and begins speaking clearly about sin, repentance, righteousness, and the Lordship of Jesus Christ, everything changes. (prophecynewswatch.com 4/2)

NC Governor Josh Stein, with a State Muslim population of 1%, not only wished them a Blessed Ramadan, but encouraged the State's 99% non-Muslim population to observe Ramadan the way Muslims do. (jihadwatch.com 4/9)

## North Atlantic Treaty Organization

Secretary Rubio on NATO. Secretary Rubio says since NATO isn't allowing the US to use their bases then we have to ask, "Why are we in NATO? The US is going to have to reexamine the value of NATO and that alliance for our country. (beholdisrael.com 4/1)

A Continental Suicide. Quoting the Ministry of Defense in Vienna, Spain, Italy, France, and Austria banned the US military from operating in their airspace for strikes in Iran, committing European suicide. (beholdisrael.com 4/2)

UN Security Council. The New York Times reports Russia, China, and France are blocking an initiative by Arab countries that want to force the UN Security Council to approve military action against Iran to reopen the Strait of Hormuz. France is officially part of the "other side"! (beholdisrael.com 4/2)

### Turkey's NATO Role Under Scrutiny as it Moves Away From the West and Toward Muslim Brotherhood

and Hamas. Turkey has an extensive history of supporting the Muslim Brotherhood and its offshoot Hamas, and far beyond. Turkey has

collaborated with the worst jihadists, including ISIS. It is a particularly dangerous country, so much that it can be reasonably concluded that

NATO would be reckless to continue to include it as a member. (jihadwatch.com 4/4)

### Trump Threatens to Sever Ties With 'Paper Tiger' NATO.

The US pays for 62% of NATO's total \$1.59 trillion defense spending. There are 32 member countries in NATO: the US, Canada, Turkey and 29 European nations. So why is the US paying significantly more than half? Also, most EU countries are governed by ruinous leftists who have betrayed their own people's right to free speech, decimated their national security with open-door immigration policies, celebrated "diversity" by allowing Islamic supremacist and Sharia incursions, and repeatedly demonstrated their loathing for their own history and traditions. And finally, the Islamic Republic of Iran is a global menace; if anyone should be supporting the war on Iran, it should be EU member states, particularly considering that Iranian missiles can reach Europe. It is high time that the US abandon NATO which has evolved over time to demonstrate anti-Western values and anti-Americanism all too often (jihadwatch.com 4/3)

Protests in Istanbul. On Saturday many Turkish citizens protested on the streets of Istanbul demanding the dismantling of NATO and Turkey's withdrawal from the alliance as they shouted slogans against

the US. (beholdisrael.com 4/5)

Europe. It's astonishing to watch Europe's self-destruction in real time. The war with Iran will be over within weeks, its outcome is no longer in doubt. And yet, even now, Europe is proving to the US that they are not just unreliable allies, but increasingly irrelevant ones. (beholdisrael.com 3/31)

### NATO At The Crossroads: What Now?

The question now is simple: can an alliance survive when partners do not fully agree on every mission, yet still rely on each other in moments of crisis? The answer will shape US-European relations for decades, and define whether NATO remains a pillar of shared security -- or becomes a relic of assumptions the modern world no longer tolerates. (prophecynewswatch.com 4/9)

### White House Weighs Punishing NATO

Allies With Troop Reductions. The White House is reportedly considering restructuring US military presence in NATO countries based on their support for the US in Iran. Countries like Poland and Greece could see increased American forces, while Germany and Spain may lose resources. Spain's Socialist Prime Minister initially refused base access, and Germany's Chancellor called the conflict a "disastrous mistake." (upward.news.com 4/10)
