

The Endtimes Are Now!

News headlines related to biblical prophecies about the end times.

The Middle East

Iran's Plan to Assassinate President

Trump. New intelligence reports indicate that Iran's Quds Force (part of the IRGC) reportedly established a unit called Mukhtar which will work with Mexican cartels and elements of the Iranian diaspora to plan assassinations of President Trump and other US officials. (beholdisrael.com 7/6)

Turkish Foreign Minister: Israel 'A Burden That Humanity Can No Longer Bear'

Turkey's FM claims Israel is a problem for all of humanity. With their policies and mindset, humanity cannot carry this burden. The human conscience cannot bear it. Political and economic systems cannot sustain it. No matter which framework you use, there is no parameter under which the Israeli people can be sustained. (jihadwatch.com 7/7)

Israel and Greece 'on Alert' After Trump's \$700,000,000 Sale of F-35's to Turkey;

Efforts Underway to Block Sale. US President Donald Trump's apparent determination to make Turkish President Erdoğan "happy" at the NATO summit in Ankara has heightened con-

cerns in neighboring Greece and Israel, both of which oppose any sale of F-35 fighter jets to Turkey. Turkish President Erdogan is a paramount threat both to Israel and Greece. (jihadwatch.com 7/8)

Why Western Jews are Coming Home to

Israel. For generations, the West was supposed to be the safe place where Jewish families rebuilt after the Holocaust, where they found opportunity, legal protection, religious freedom, and a sense that the horrors of the past would never again be tolerated. That assumption is now collapsing. Immigration to Israel from the United States, France, the United Kingdom, and Canada rose by 25%, accounting for 38% of all new arrivals, compared with 21% the year before. (prophecynewswatch 7/3)

Iranian State Media: 'No Choice But to Obtain the Atomic Bomb'.

"To remove the military option for the occupation and partitioning of Iran" from the table, Iran must "absolutely reach nuclear deterrence" before current negotiations can be conducted "from a correct position," per Fars. (jihadwatch.com 6/29)

Look Up! Our Redemption is Near!

If there was ever a time to turn down the volume of the news and turn up the volume of God's Word in your life, this is it.

Soon, almost nothing will make sense to you. But remember this isn't the first rodeo for our world when it comes to spiritual darkness and strong delusion.

Think about the days of Elijah and how it must have felt to be so lonely, watching as almost an entire nation had forgotten God, His goodness, faithfulness, and power.

Yes, even when Elijah thought he was alone, the Lord reminded him:

"Yet I have reserved seven thousand in Israel, all whose knees have not bowed to Baal." (1Kings 19:18)

The Bride of Christ is strong and well able to fight the spiritual darkness all around us. "Greater is He that is in you than he that is in the world." On our knees in humble submission to our God we fight against principalities and powers of darkness as we wait in great anticipation for our redemption. It's almost here!

Technology Fit For Tribulation

Every Camera Knows Your Name: The Surveillance Future is Already Here.

As you walk past a police vehicle, a camera silently scans your face. Within seconds, artificial intelligence compares your image against government databases. Another camera identifies your vehicle. Your smart phone quietly confirms your location. Computers can now connect where you've been, who you've met, and perhaps one day what you've purchased. (prophecynewswatch.com 7/7)

The First Human-Free Cyberattack Has Arrived.

There was no criminal mastermind pounding away at a keyboard. Instead, an artificial intelligence quietly found its target, broke into a vulnerable computer system, searched for passwords, adapted when its first attempts failed, encrypted a company's data, and demanded a Bitcoin ransom, all without a human telling it what to do next. If security researchers are correct, we may have just witnessed one of the most important and unsettling moments in

the history of cybersecurity. For the first time, the hacker wasn't human. The findings still await independent verification, but if they prove accurate, this isn't merely another cybersecurity headline. It represents the crossing of a technological threshold that could fundamentally reshape cyber warfare, organized crime, and even national security. The AI appeared to reason through problems as they occurred. When one login attempt failed, it adjusted its strategy and successfully gained access just 31 seconds later. It wasn't blindly following a script, it was adapting. That should get everyone's attention. Now imagine not one AI hacker, but thousands. It may be machines battling machines while humans struggle to keep pace. (prophecynewswatch.com 7/7)

More Than Machines: The Rise of Robots Built to Replace Human Companionship. Covered in lifelike synthetic skin, complete with expressive faces, realistic eyes, and even manicured fingernails, these robots

are engineered to appear as human as possible. Equipped with cameras, microphones, artificial intelligence, and emotional recognition software, they are designed not merely to answer questions, but to build relationships. (prophecynewswatch.com 7/3)

7 Ways Your Next Car Could Control More Than Just The Road.

1) Your car is watching you. 2) Your car knows more about you than you think. 3) Your driving is becoming a digital score. 4) You may own the car, but not control it. 5) Artificial intelligence is starting to make driving decisions. 6) Safety today...control tomorrow? 7) The automobile is quietly redefining freedom. Once symbolizing freedom because it expanded where we could go, new vehicles may be remembered for expanding what others know about where we go, and how much influence technology has over the journey itself. (prophecynewswatch.com 7/15)

Right now, we're standing on the brink of eternity. Any moment, any second. It breaks my heart to see any of my brothers or sisters beginning to drift. Let's all gird up our minds, tighten our belts, serve God with enthusiasm and great joy. Love, believe, and obey His Word. Spend more time with Jesus and less with the world. As ambassadors of Jesus, we are

we are here, not to please the world, but to represent our God, making all of our decisions based on "What will please our King." Pleasing Jesus must be the main focus of our every day, assembling ourselves together at every opportunity, and never letting the cares or pleasures of life blur the vision of our Lord's soon return.

One Rapture—One Time

“...Famines, and Pestilences, and Earthquakes...”

Death Toll From Venezuela Earthquakes Rises.

The death toll from the two earthquakes that struck Venezuela on June 24 has risen to 4,490, with 16,740 injured, thousands still missing, and 17,907 homeless as of a July 12 report. (reuters.com 7/12) This is but a preview of the massive earthquakes prophesied during the Tribulation.

EPA Greenlights PFAS Pesticides Never Before Used in U.S. for Use on Corn, Wheat, Soy and Other Food Crops.

The controversial approval of the two new “forever chemical” pesticides came just days after the U.S. Supreme Court sided with Bayer in limiting Americans’ ability to sue pesticide companies for harms linked to pesticides. Diflufenican and Epyrifenacil, never before used in the U.S., can now both be used on the two most widely grown U.S. crops, corn and soybeans. Epyrifenacil has also been approved for wheat.

Keep mRNA Flu Shots Off the Market.

On June 18, the federal Vaccines and Related

Biological Products Advisory Committee (VRBPAC) voted to approve Moderna’s mFlusiva mRNA flu vaccine for people over 50 despite serious concerns from both scientists and the public about the safety and efficacy of the product. If approved, mFlusiva would be the first mRNA seasonal flu shot licensed in the US. The only other mRNA vaccine on the market is the COVID shot which has an alarming safety track record including 39,166 deaths among 1.7 million adverse events reported to the Vaccine Adverse Event Reporting System (VAERS). VRBAC’s recommendations are advisory but are usually accepted. A final decision is expected by August 5. (childrenshealthdefense.org 6/29)

Europe’s Heat Wave. France’s public health agency reported about 1,000 excess deaths between June 24 and 27 amid an intense heat wave in the country, during which temperatures peaked at 111.7 degrees Fahrenheit. Europe does not have the same level of air conditioning as America. Around 90% of American homes have AC, whereas only about 20% of European households have it. (Theepoch-times.com 6/29, cnn.com)

Scorching Heat Forecast Threatens Demand Records on US Electric Grid.

U.S. power grids this week face a blistering heat wave across the East Coast and Midwest that is expected to break summer demand records, straining systems already pushed to the brink by surging energy consumption by data centers and electric vehicles. (newsmax.com 6/30)

HHS Awards Moderna \$314 Million for Adult and Pediatric COVID-19 Vaccines.

Despite demand collapsing to just 17% among adults and 9% among children (per CDC data) the Department of Health and Human Services (HHS), through the Centers for Disease Control and Prevention (CDC), has awarded Moderna more than \$314.2 million in contracts for adult and pediatric COVID-19 vaccines for fiscal years 2026 and 2027 according to federal procurement records published this month. The awards were issued June 1 through the CDC Office of Acquisition Services. (jonfleetwood.com 6/30)

The World Still Hates Gods’ Word

Presbyterians Vote to Sacrifice Children on the Altar of Gender Ideology.

This is not compassion. It is not justice. It is not biblical love. It is a church surrendering to an ideology that demands children become experimental subjects in the name of affirmation. There are bad decisions. There are tragic decisions. And then there are moments when a church crosses a line so unmistakable that “Christians” can no longer dismiss it as merely a “theological difference.” The Presbyterian Church (USA) has now done exactly that. By an astounding 441-30 vote, delegates overwhelmingly endorsed support for gender transition procedures and publicly opposed laws restricting these interventions, even for children. Although the final wording removed the phrase “including minors,” assembly leaders immediately clarified that their support extends to people “without age limit.” The message could not be clearer. (prophecynewswatch.com 7/7)

'Incredibly Problematic': Liberals in Congress Vows to Investigate America 250 for Featuring Christianity.

Some in Congress are vowing to investigate the national celebrations of America’s 250th birthday, specifically because of its high-profile inclusion of Christianity.

Methodists Punish Seminary for Believing the Bible.

Imagine telling the apostles that one day a Christian seminary would be punished—not for denying Scripture, but for believing it. Sadly, that day has arrived. In one of the clearest signs yet of how far the United Methodist Church has drifted from its biblical foundations, Asbury Theological Seminary has been removed from the denomination’s approved list of schools for ordination. Its offense was neither scandal nor doctrinal confusion. It was refusing to abandon the Bible’s historic teaching that marriage is the lifelong covenant between one man and one woman.
