

This style gives you two hangers close together and is only 10 inches wide. This double hanger system can hold four triple chains and four single chains combined.

- **SAFER** - No dangerous hooks and requires no bending and twisting to load chains
- **EASY TO USE** - Lift and roll system allows easy access to chains away from the truck
- **MAINTENANCE FREE** - Roller system has two sealed bearings so it will not bind due to corrosion or freeze in the winter
- **STORAGE** - Hangers can be easily removed and stored in the off season to reduce weight on the truck and prolong the life of the hanger

Specifications:
Part # MACHD 300

Our patented chain hanger system is much safer and more efficient to use than traditional designs.

- Holds four triple chains and four single chains when using both hangers
- Requires 10 inch horizontal clearance and minimal vertical clearance
- Recommended weight is 300 lbs per hanger
- 5 year warranty on manufacturer defects
- Safety latch - Can be secured with a padlock
- Weight: 59.2 lbs
- Dimensions: 30" L X 10" W X 10" H
