

Hello,

For anyone in need of bookkeeping services, I hope you find this review as I highly recommend Laurie with CommonCents Office. I was in the position of having to launch a company in a very short timeframe. When it came to the bookkeeping aspect, I was way in over my head until I was thankfully introduced to Laurie.

From the very beginning she showed compassion, patience, and proficiency in her craft. Along the way I had an abundance of questions that she so kindly explained and demonstrated so that I had a better understanding. When it comes to the financial information, Laurie is able to accurately organize, manage and reconcile the records. Her attention to detail makes sure nothing is overlooked so that everything continues to flow correctly, which I greatly appreciate. As an added bonus, Laurie also demonstrates a commitment to adhering to current laws by sharing articles of news updates ensuring our financial practices are up to date.

Her excellent communication and willingness to assist has greatly contributed to our seamless work relationship and after a year together, Laurie continues to be a reliable and valuable source to our company. I have no doubt that Laurie will be a treasured asset to any organization.

Sincerely,

Justine Castro
