

December PRAYER

Dear Heavenly Father,

I come humbly on behalf of my sisters and everyone under the sound of my voice. I pray, Lord, that you lift each and every woman up in this season. Be the strength in her weakness, as you say in our weaknesses, you are made strong. Lord, I rebuke every attack, plot, ploy, and scheme from the enemy trying to hold her back from the purpose you have created her for.

"I speak life into your daughter. She has been tired this year. She has gone through trials this year. She has been afraid to be weak this year, trying to hold everything together. But I pray you remind her this very day that you have always been with her and always will be, that you hover over her, pursuing her heart daily, looking to be good to her, looking to bless her, looking to forgive her, to show her your goodness, grace, and mercy daily."

Lord, I pray this woman perceives the new thing you are doing in her life in 2024, and I pray she finishes December strong. I pray you give her the connections, the wisdom, the relationships, the support, the love, the healing, the faith, and the discipline she needs to be obedient to the steps you have laid on her heart.

"This year, Lord, will be the year she walks into the fruit of the pain and trials she experienced and believed you through. All the wisdom she gained, all the strength she gained, the renewal and restoration you gave her—they will bloom into healthy relationships, habits, mindsets, and a lifestyle for her."

Lord, bless my sister. And I pray you continue to prepare for her the blessing in her heart, in her mind, and in her spirit. We want to see you move in our lives this upcoming year, Lord, and we pray that December is the springboard towards becoming the woman you have called us to be!

"Lord, we humbly seek you. We seek you knowing we aren't perfect, asking you for a clean heart, mind, and spirit, willing to remove anything that draws us away from you. I rebuke distraction, counterfeits, and shallow promises of the enemy and pray my sister seeks your kingdom first and has clarity in what you are trying to place in her life."

Lord, we pray December is the time we are fully trusting you, fully depending on you, rejoicing in trials, recognizing our weaknesses, where we fix our priorities, become more disciplined, take advantage of the resources available to us in order to become the woman for the job. May my sister be healed from what she has said about herself, what her past has tried to define her as, and what others have said about her, and instead steps into what you say!

"Lord, December will be us coming into alignment with who you say we are. My sister is no longer bound by trauma or pain but lives freely in the peace, joy, and clarity a close relationship with you provides her. I speak complete restoration and healing into my sister from anything that may have convinced her she isn't the woman you have called her to be."

Renew her mind to think only what you say. May your word never depart from her lips. May she know you are with her at every moment, in every room, in every assignment you place on her life. I speak life into my sister that she may purposely steward December to be able to confidently walk into the words you spoke over her life since the beginning of time.

"May she steward December better than every month of the year, and may you redeem our time from any mistakes, distractions, or sidesteps we have taken in 2023. You are doing a new thing, and we just ask you continue to prepare us as a group and individually to handle the Season that we are about to step into."

"Purify our hearts that we only seek you, that we only crave you, that we seek you every day, that your kingdom is what our focus is on, that we feel whole and complete in you. Fill us in a way that allows us to release anything that doesn't serve us easily because we live off of the bread of your word."

"I thank you for my sisters and your answers to prayer in their lives. In Jesus' name, I pray. Amen."
