HEBER CITY UT 84032

Re: Charity Application for Wasatch County School District Foundation

Dear Kirsta Albert:

The Division of Consumer Protection reviewed your documentation and it appears that Wasatch County School District Foundation is exempt according to the Charitable Solicitations Act.

The stated organization is exempt according to UCA §13-22-8(g) a public or higher education foundation established under Title 53E, Public Education System -- State Administration, Title 53G, Public Education System -- Local Administration, or Title 53B, State System of Higher Education.

Please be advised if the stated organization elects to utilize a professional fundraiser, professional fundraising counsel, or professional fundraising consultant, the fundraiser is required to be registered prior to conducting charitable solicitations in the State of Utah. UCA §13-22-9 states, it is unlawful for any person or entity to act as a professional fundraiser or professional fund raising counsel or consultant whether or not representing an organization exempt from registration under section §13-22-8, without first obtaining a permit from the division.

In the event that the stated organization modifies their solicitation structure, it would then be necessary to submit new documentation to the Division. If you have any questions please contact Shauna DeWolf, Program Specialist/Compliance Specialist.

Sincerely,

Daniel R.S. O'Bannon Director
Utah Division of Consumer Protection
