COFFEE

LOOSE COFFEE

1. Freshly ground espresso is supplied with the machine.
2. There is a one and two-shot espresso filter (stainless steel basket). Use the black measuring scooper with loose coffee grounds (1 or 2 scoops) and then level the top so it's flat end, if not it won't fit.
3. Coffee should NOT be packed and NOT over the line in the middle of filter.
4. Then hook and twist into the machine.
5. Press the single or double button on the front of the machine to fill the cup.
6. You may need to press the button more than once if you want a longer espresso.
7. It will turn off automatically. Froth milk at your leisure.

COFFEE PODS

1. Use the stainless steel coffee filter with the pod symbol. Follow the same steps 4-7 above.

GARDENERS

The property is quite large, and as a result, there are groundskeepers who maintain the gardens and outside areas twice a week, depending on the weather. You may occasionally see two workers on the property. If you would prefer not to have them there, please inform us, and we will make alternative arrangements.

FRUITS & VEGETABLE

On the property, you will find fruit trees and a vegetable garden that you are welcome to enjoy. Feel free to pick your own tasty treats using the baskets and picking tools provided.
