

COMMUNICATION AUTHORIZATION FORM

To: Marina Village Owners

Florida Statute 718 requires that we obtain permission in writing from owners in a condominium to:

1. Allow other owners to have your phone numbers and email addresses
2. Allow the Association to send you notices of meetings via electronic transmission

Allowing other owners to have your contact information may be beneficial as neighbors are a good source of security. Your contact information would be provided to them through an Association directory and/or website or through the management company.

Allowing the Association to send you notice of meetings via electronic transmission saves the Association on postage expense and eliminates the question of which address you want your mail sent.

(Please check the appropriate option)

_____ Please send communications to me via email.
