

Leading Turfgrass Farms Align with Tolar Capitol Partners

Georgia has long been key in developing new turfgrass varieties used for landscapes, lawns, sports fields, golf courses and more. The University of Georgia has world-class facilities and staff leading these breeding programs. In addition, Georgia lawmakers know the economic importance of this industry and have made significant investments in these UGA facilities on the Athens, Griffin and Tifton campuses. Tolar Capitol Partners, Inc. is pleased to announce two of these industry leading turfgrass businesses as clients of our government affairs firm.

[Patten Seed Company](#) produces, harvests, processes, and markets turfgrasses and grass seeds. "Bryan's passion for agriculture issues is simply second to none," stated Patten Seed Company Chief Operating Officer Ben Copeland, Jr. "We are proud to work with him."

Well known for their Super-Sod grasses, Patten Seed Company also produces and delivers [Soil3](#) organic farm compost. With farms in Georgia and across the southeast, their products are used in residential, commercial, and professional lawn and garden applications. The company offers its products through retail outlets and dealers, as well as online. Patten Seed Company was founded in 1954 and is headquartered in Lakeland, Georgia.

[Pike Creek Turf, Inc.](#) is based in Adel, Georgia and produces 14 varieties of turfgrasses on more than 1,800 acres. They have built a strong reputation with golf course architects, developers, superintendents and contractors. In addition to their presence across the southeast, Pike Creek Turf also plays a major role with international sales. You can find their turf in use at UGA's Sanford Stadium and in major sports arenas across the country.

Tolar serves as Principal of Tolar Capitol Partners, Inc. For more information, go to www.TolarCapitolPartners.com or contact info@TolarCapitolPartners.com.
