PERFORMANCE.**

BASEMENT DOORS

Basement doors are ideal for access to basement storage areas and for moving large items into finished basement areas. The wide opening allows storage items such as deck and patio furniture, and large items such as pool tables and furniture, to be easily moved in and out of a basement. Doors meet IRC 2023 building code requirements for emergency egress in finished basement living areas and feature weather resistant construction.

Classic Series

Steel Sided

Features:

- ❑ Patented gas spring lift assistance for improved operation
- ❑ Baked-on Sherwin Williams primer provides durable base for finish paint
- ❑ Slide bolt locking mechanism (optional keyed lock kit available)
- ❑ Flanged construction and J-channel header shed water and prevent binding due to ice and snow, permitting all-season use
- ❑ BILCO also offers a basement door weatherstrip kit and keyed lock kit. *(See page 11 for all basement door accessories)*

SKIP THE PAINT!

Order your door prefinished to match your home. The factory-applied polyester resin finish provides a durable, weather-resistant coating and eliminates the need to paint your door after installation.

(See page 4 for more information)

Classic Series

Type BRSlopedWall Door

Features gas spring lift assistance and an easy to install design.

Features:

- Heavy-duty steel construction
- Designed with a flat frame for ease of installation
- Gas spring operators and supplemental coil springs counter-balance the door leaves for easy, one-hand operation
- Baked-on Sherwin Williams primer provides durable base for finish paint
- Flanged construction and J-channel header shed water and prevent binding due to ice and snow, permitting all-season use
- Available in three standard sizes and extension panels and foundation plates are available to accommodate virtually any areaway dimension
- BILCO also offers a basement door weatherstrip kit and keyed lock kit.
(See page 11 for all basement door accessories)

BASEMENT DOORS

Powder Coat Finish

BILCO Classic Series steel basement doors and Classic Series Type BR Sloped Wall Doors are offered with a factory-applied polyester powder coat finish. The polyester resin provides a durable, weather-resistant coating. Cured at higher temperatures than most wet coatings, the result is a tougher and chip-resistant coating, providing both a decorative and protective finish.

- Eliminates the need to paint the door after installation
- Offers a superior finish to conventional paint
- Makes the BILCO door durable, attractive and extremely scratch-resistant
- Retains exterior color longer
- Finish process is environmentally friendly and virtually pollution-free
- Powder coated extension panels and foundation plates are also available

BASEMENT ACCESSORY PRODUCTS

Keyed Lock Kit

With a BILCO basement door lock, a simple turn of the key opens the door from the outside, providing convenient access to basement storage areas, workshops, playrooms and utility rooms. The lock kit is designed for homeowner installation and is supplied with a template and complete instructions for quick, easy installation. Watch our on-line installation video.

Foundation Plates

Used in both new and retrofit applications, foundation plates improve an areaway's appearance, cover rough masonry, reduce the inside areaway width, or provide side support in corner installations. Formed plates are constructed of prime-painted steel and are available with an optional powder-coat paint finish (see available colors on page 4). Foundation plates are 84" in length and are available in 5", 8", 11" and 14" widths.

Stair Stringers

Stringers are available for all size BILCO basement doors. Constructed of heavy gauge galvanized steel, stringers are ideal for replacing existing wooden basement steps. The removable tread design allows bulky items to be easily moved into the basement for storage.

Standard Sizes

Basement Door	Stair Stringer		
	Model	Stringer Length	No. of Stair Treads
Size SL	Size SL-SS	34 ⁵ / ₈ "	4
Size O	Size O-SS	51 ³ / ₈ "	6
Size B	Size B-SS	59 ³ / ₄ "	7
Size C	Size C-SS	68 ¹ / ₂ "	8

Multiple stringers can be used together and extensions (SZ-E-SS) are also available for non-standard areaways. Extensions are 25 ¹/₄" in length and add 3 stair treads.

Weather Strip Kit

BILCO's new weather strip kit is easy to install and includes a series of gaskets specifically designed to seal the intricate shape and areas of a basement door. The kit is supplied with complete installation instructions and the only tools required are tin snips or large scissors. Simply trim the materials as instructed to match your specific door model (possibly even other brands of steel basement doors) and enjoy your well-sealed areaway. Watch our on-line installation video.
