AUDIT DATE: Jul 24, 2017

Revision 1

CERTIFICATE VALID FROM:

Aug 25, 2017 To Aug 24, 2018

AUDIT SCOPE:

Moore & Moore Farms is a conventional watermelon grower / packer / shipper located in Hornersville, MO. They have a 4,500 Sq. Ft. facility where the watermelons are received from the nearby field in modified school buses. The watermelons are unloaded by hand in a conveyor belt where they go through a single pass and two steps washing with two separate nozzles. The first nozzle applies water (provided by the City of Hornersville) treated with Selectocide (EPA # 74986-5) at 3 to 5 ppm of free chlorine. The second nozzle applies fresh untreated water from the same source to rinse the Selectocide. The watermelons are then graded, sorted and packed in cardboard bins ready to be shipped. There are no allergens handled. 20 people work in average in the facility in the packing operations that run from July to August.
