AUDIT TYPE:

Announced Audit

AUDIT SCOPE:

Inspected the Langdon Barn Farm under the control of Moore & Moore Farms. The farm includes 15 acres of conventional watermelon. Water is sourced from two on-site wells for drip irrigation, and one off-site well used for chemical applications. Pesticide applications can be applied by the owner or a contracted aerial applicator(Folden). Adjacent land includes cotton fields and perimeter roads. The owners and approximately 6-8 workers conduct farming operations. Planting begins in April with the first date of harvest as 6/26/18. Other farms under the direction of Moore & Moore, as well as the harvest crew were not observed and are not a part of the scope of this audit.

PRODUCTS:

PRODUCT(S) OBSERVED DURING AUDIT

Watermelons
