AUDIT TYPE:

Announced Audit

AUDIT EXECUTIVE SUMMARY:

Review of a conventional watermelon packing facility with approximately 15,000 square feet, operating with 18-22 workers, with a 3-4 week packing season. Melons are received from the organization's growing area, and are unloaded onto a belt. They then pass through a dry brush bed, are stickered, sized manually, and packed into bulk corrugated bins. Products are stored at ambient temperatures for a short time prior to shipping, typically the same date of within 1-2 day. Products are not washed. There are no critical control points associated with the HACCP program.

Addendum(s) included in the audit:

Not Applicable

Product information for each product

Product Group/Product Name	Observed Product	Seasonality	Country of destination for product
Watermelons	Observed on the day of audit	From: June To: July	United States
