AUDIT TYPE:

Announced Audit

AUDIT EXECUTIVE SUMMARY:

The scope of this audit is the packing facility and associated documentation of Lakeside Farms, which receives, sorts, cleans, packs, and ships watermelons, in a 11000 sqft facility comprised of a semi-open production area and an enclosed packaging storage area (trailer). There are no cooled storage areas. Product is received from field transport vehicles (modified buses) at a dock and immediately transferred to a conveyor belt, which directs the product to covered rotating brushes, then to loading points where cardboard bins (36, 45 and 60 ct.) are placed on pallets. Loaded boxes on pallets are moved to temporary storage areas by forklifts. 20 employees were present in the packing facility. No water is involved in the packing process. No CCPs were associated with the observed processes.

Addendum(s)/Module(s) included in the audit:

Not Applicable

Product information for each product

Product Group/Product Name	Observed Product	Seasonality	Country of destination for product
Watermelons	Observed on the day of audit	From: July To: August	United States
