AUDIT TYPE:

Announced Audit

AUDIT EXECUTIVE SUMMARY:

This is a short season, partially open conventional watermelon dry packing facility. The facility is approximately 5000 sq ft with 4 open doors and operated by roughly 20 employees on a single packing line. The melons are off loaded from the bus on to an outside covered conveyor line. The melons are dry brushed and then are graded for size and quality and then placed into bins. The bins are marked with a GTIN sticker with location of harvest and date of pack. The packing area and storage is ambient in temperature. The product is then shipped out. Pest control and other records were inspected. There are portable restrooms for employees and hand washing stations located outside and away from the building. There is a covered break area also available away from the building.

Addendum(s)/Module(s) included in the audit:

Not Applicable

Product information for each product
