Oslö Minister

Adaptable Lift Chair

The Minister Powered Lift Chair with a choice of two comfortable cushioning back supports combine timeless design and exclusive technology to provide unsurpassed comfort and reliability.

The Oslo Minister Lift Chair is a highly specialised ergonomic seating solution, meticulously developed by a multidisciplinary team including Occupational Therapists, product specialists, and engineers.

Precise adjustments can be made to the headrest

Adaptable lateral support backrest

Hooks for the handset are located on both sides of the chair.

Large storage pockets to hold magazines, laptops, books etc.

Easy to use hand held controller with intuitive buttons to increase independence and achieve maximum positioning options for the user. Including a home button, which will reset the positioning of the chair.
USB port also included.

Multi-dimensional positioning with effortless recline, leg elevation and chair lift functions to assist with the user's transfers and repositioning needs.

Colours Available*

*Colour may vary in different lighting

The Oslo Minister Lift Chair is crafted for those who appreciate a compact yet deeply ergonomic design.

Engineered for superior posture stability, its lateral support backrest adapts effortlessly, allowing you to fine-tune both cushioning firmness and contour shape.

Powered by four independent motors, this chair offers precise adjustments to the headrest, lumbar, backrest, and footrest for a fully personalised seating experience.

The advanced two-stage lift mechanism ensures a seamless, more vertical lift, while the lay-flat feature and extended footrest invite ultimate relaxation.

Designed for healthy sitting, the built-in lumbar support makes every moment in this chair effortlessly comfortable.
