

Aids for Daily Living

Novis offers an extensive range of products designed to provide assistance in a user's day to day activities. These items play an essential role in maintaining and supporting a user's independence whilst improving their quality of life and range from simple eating, drinking and dressing aids to cognitive assistance products for people living with dementia.

- ❑ Eating and Drinking Aids
- ❑ Dressing Aids
- ❑ Bathing and Grooming Aids
- ❑ Cooking and Preparation Aids
- ❑ Reaching Aids
- ❑ Cognitive Aids
- ❑ Falls Prevention Aids
- ❑ Other Daily Aids

Novis supports a large and exclusive range of daily living aids to help people with everyday tasks such as gripping, turning, eating, writing and dressing. Designed for people with limited flexibility or reduced strength and mobility in their arms and hands, these ergonomic products help to reduce the strain on muscles and joints and give users a greater independence for an improved sense of well-being.

Bathing and Grooming Aids

A range of simple yet clever daily living aids designed to make bathing, washing and personal grooming all that much easier.

Dressing Aids

Products that help with various everyday dressing tasks. Designed specifically to help and support when strength and mobility are restricted, they protect and relieve the strain on muscles and joints, giving an improved sense of wellbeing and independence.

Reaching Aids

A range of ergonomic reaching devices designed to make reaching and gripping easier, despite limited strength or decreased grip.

Cooking and Preparation Aids

Clever aids for daily living designed to make everyday cooking and food preparation tasks easier, and promote independence in the kitchen.

Eating and Drinking Aids

These products are designed to make eating and drinking easier, despite limited power and movement in arms and hands. Products are ergonomically designed to give a relaxed movement that makes the best use of power while relieving strain on sensitive joints and muscles.

Personal Medical Devices

A range of electronic devices to assist in the management of day-to-day health or to help relieve pain.

Cognitive Aids

A range of products that provide support and increase safety for clients with cognitive impairments such as dementia.

Falls Prevention

A range of products to make the home environment safer, helping prevent fall related accidents in and around the home, especially for people with reduced mobility, eyesight or hearing.

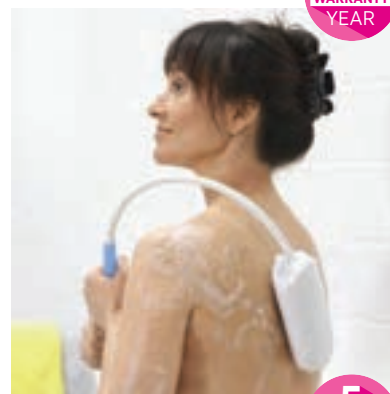

Other Daily Aids

A range of smart products for daily living, all designed to minimise the main obstacles for living an independent life.
