aspire EVOKE 2 Lightweight & Highly Adjustable

The Aspire EVOKE 2 and EVOKE 2 HD are highly adjustable, lightweight, aluminium wheelchairs designed to enable a personalised fit for every user. A comprehensive range of compatible accessories is available for increased independence and enhanced clinical outcomes.

FEATURES

Frame: Folding Lightweight Aluminium

Legrest: Swing-away & Removable

Footrest: Height & Angle Adjustable

Armrest: Swing-back & Removable

Wheels: Quick Release, Solid 24" Tyres, Height & Depth Adjustable

Castors: 8", Height & Angle Adjustable

Brakes: Easy Access Push-to-Lock Brakes

Seat: Depth & Height Adjustable

Backrest: Height, Tension, Angle & Depth Adjustable

Upholstery: Dacron Fire Retardant Fabric

Cushion: Contoured Overlay is optional, Standard cushion Included

Weight: From 14.8kg (SWL 140kg - HD 180kg)

OPTIONAL ACCESSORIES

- Elevating Legrest
- Advanced Articulating Elevating Legrest
- Stump Supports
- Oxygen Bottle Holder
- Brake Extensions
- Lateral Supports
- Contoured Padded Overlay
- Gutter Arm Rests
- Drum Brakes

- Anti-tip Bars
- IV Pole
- Safety BeltCamber Kit
- Calf Straps
- Headrest Assembly

THE HIGHLY ADJUSTABLE FEATURES FULFILL MANY CLINICAL REQUIREMENTS GEARED TOWARDS COMFORT AND SUPPORT

castors

promotes increased comfort and improved positioning. As well as this, it allows body weight redistribution to help alleviate pressure areas.

SUPPORT SURFACES:

- Multi-layer foam construction with castellated top layer for enhanced comfort, pressure redistribution and durability
- Breathable PU multi-stretch cover for improved pressure redistribution and skin micro-climate management

BACKREST - CONTOURED:

- Gentle lumbar build up for postural support
- Moderate lateral supports for assisted midline sitting

CUSHION:

- Integrated positioning skeleton for enhanced sitting posture
- Fabric tensioners provide a smooth support surface
- Gentle abductor and adductor contouring provide improved postural support

ARTICULATING ELEVATING LEGRESTS

Padded Legrests mirror the anatomical range of movement at the knee joint, ensuring thighs don't elevate as legs are raised. This facilitates better postural support and maximises the skin contact area for pressure redistribution.

INFECTION CONTROL Easy to clean surfaces. **CUSTOM COMFORT**

After-market backrests

SAFETY IN DESIGN

Padded fittings and supports keep the user safe and secure at all times.
