

14 Oct 2025: Update: Brisbane Transport

As of today, Brisbane Transport will be removed from the InXpress “Machship” Portal. This change has been made following confirmation from Brisbane Transport that they will now only be able to support ad hoc full-load requests (B-Doubles) and/or project work rather than providing ongoing general freight services.

What this means for you:

- No bookings can be made via the Portal for Brisbane Transport.
- If you have a customer requiring a full-load movement, please reach out to Brisbane Transport for a quote. These bookings can be handled outside the Portal as a non-core carrier and will still be on account with head office to help you.

I know many of you are already working closely with Kev on some fantastic opportunities, and Brisbane Transport definitely want to keep that momentum going. Please note that these opportunities are ones that cannot be quoted through the Portal, as Brisbane Transport will offer more competitive and customer specific pricing directly to suit the opportunity.

If you have customers with full loads or project work, we know Brisbane Transport are an excellent fit for this type of freight. They are fully supportive of InXpress and happy to work with us to make these opportunities a success, so please continue to engage with them when these needs arise, they just can't be done through the Portal.

Detail to Reach out to for Brisbane Transport:

Kev Duckett - Business Development Manager

Head office Brisbane

1717 Ipswich Rd Rocklea QLD

E: kevin@brisbanetransport.com.au

We sincerely thank Brisbane Transport for their support throughout this year, and we do understand that this change reflects both their trucks running at full capacity – a great position for them – and a shift to a model that allows more tailored, customer-specific pricing for this type of freight for InXpress. We genuinely appreciate everything they have done, and continue to do, to support our network.
